Chemistry Department

*Chemical studies on the separation and
determination of some lanthanides from their
economic concentrates*

*Thesis Submitted for
Ph.D. Degree of Science in Chemistry*

By

Ekramy Mohamed El- Desouky
(M. Sc. 2008)

Assistant lecturer-Nuclear Materials Authority

*To
Chemistry Department
Faculty of Science
Ain Shams University
Cairo, Egypt*

2015

Faculty of Science
Chemistry Department

*Chemical studies on the separation and
determination of some lanthanides from their
economic concentrates*

Thesis Submitted for Ph.D. Degree of Science in Chemistry

By

Ekramy Mohamed El- Desouky

(M. Sc. 2008)

To

*Chemistry Department-Faculty of Science
Ain Shams University*

Supervised by

Prof. Dr. Salah A. Abo-El-Enein

*Prof. of Physical Chemistry
Faculty of Science-Ain Shams University*

Prof. Dr. Hisham K. Fouad

*Prof. of Analytical Chemistry
Nuclear Materials Authority, Cairo*

Dr. Nasr A. Abdel-Fattah

*Ass. Prof. of Analytical Chemistry
Nuclear Materials Authority, Cairo*

Head of Chemistry Department

Prof. Dr. Hamed Ahmed Younes Derbala
2015

Faculty of Science
Chemistry Department

Approval Sheet

*Chemical studies on the separation and
determination of some lanthanides from their
economic concentrates*

By
Ekramy Mohamed El- Desouky
(M. Sc. 2008)

This Thesis for Ph.D. Degree has been Approved by:

Prof. Dr. Mustafa M. M. Emara

Prof. of physical Chemistry, Faculty of Science, Al-Azhar University

Prof. Dr. Nadia A. M. Yousef

Prof. of Physical Chemistry, Faculty of Women, Ain Shams University

Prof. Dr. Sala A. Abo-El-Enein

Prof. of Physical Chemistry, Faculty of Science, Ain Shams University

Prof. Dr. Hisham K. Fouad

Prof. of Analytical Chemistry, Nuclear Materials Authority

CONTENTS

Acknowledgement.....	i
List of Tables	ii
List of Figures.....	v
Abstract.....	vii
Aim of the work.....	viii
CHAPTER 1	
1. PART 1 (INTRODUCTION)	
1.1. Lanthanide elements (REEs)	1
1.1.1 Occurrence	3
1. 1.2 Separation.....	3
1. 2 History of Holmium and Erbium.....	4
1.3 General abundance	5
1.3.1 Holmium and Erbium – bearing minerals.....	7
1.3.1.1 Monazite.....	7
1.3.1.2 Xenotime	8
1.4 Isotopes.....	8
1.5 General characteristics of Holmium and Erbium.....	10
1.5.1 Chemical reactions.....	10
1.5.1.1 Reaction of Holmium and Erbium with air.....	10
1.5.1.2 Reaction of Holmium and Erbium with water	10
1.5.1.3 Reaction of Holmium and Erbium with the halogens	11
1.5.1.4 Reaction of Holmium and Erbium with acids	11
1.5.1.5 Reaction of Holmium and Erbium with Bases	12
1.6 Miscellaneous Applications of Holmium and Erbium.....	12
1.7 Health hazardous	14
1.8 Kojic acid.....	15

PART 2(LITERATURE SURVEY)	
1.9 General statement.....	17
1.10 Instrumental methods	17
1.10.1 Spectrometric methods	17
1.10.1.1 Emission spectroscopy (ICP spectrometry)	17
1.10.1.2 Mass Spectrometry.....	20
1.10.2.1.3 Atomic absorption spectrometry	20
1.10.2.2 Ion selective electrode	21
1.10.2.3 Spectrophotometric methods.....	23
1.10.2.4 Derivative spectrophotometric technique (DS)	24
CHAPTER 2	
2. Experimental	32
2.1 Materials	32
2.2 Instrumentation	34
2.3 Preparation of stock solutions	34
2.3.1 Holmium stock solution	34
2.3.2 Erbium stock solution	34
2.3.3 Dye stock solution	34
2.3.4 Surfactant stock solution	35
2.3.5 Buffer stock solution	35
2.3.6 Interfering elements stock solutions	35
2.3.6.1 Lanthanum	35
2.3.6.2 Cerium.....	35
2.3.6.3 Praseodymium.....	35
2.3.6.4 Neodymium.....	36
2.3.6.5 Samarium.....	36

2.3.6.6 Europium.....	36
2.3.7.7 Gadolynium.....	36
2.3.6.8 Terbium.....	37
2.3.6.9 Yttrium.....	37
2.3.6.10 Dysprosium.....	37
2.3.6.11 Ytterbium.....	37
2.3.6.12 Lutetium.....	37
2.3.6.13 Chloride.....	38
2.3.6.14 Sulphate.....	38
2.3.6.15 Nitrate.....	38
2.3.6.16 Perchlorate.....	38
2.4 Spectrophotometric determination of holmium and erbium.....	39
2.4.1 Spectrum of kojic acid dye with holmium and erbium complexes....	39
2.4.2 Effect of the pH variation on the absorption of the studied dye.....	39
2.5 Relevant factors affecting spectrophotometric determination of Ho-Koj-CPC & Ho-Koj-CPC complexes.....	39
2.5.1 Optimization of the suitable pH buffer value of Ho-Koj-CPC & Er-Koj-CPC complexes	40
2.5.2 Optimization of kojic acid dye concentration.....	40
2.5.3 Optimization of CPC cationic surfactant concentration.....	41
2.5.4 Effect of time on the formation and stability of the Ho-Koj-CPC & Er-Koj-CPC complexes.....	41
2.5.5 Effect of sequence of addition on the formation and stability of the Ho-Koj-CPC & Er-Koj-CPC complexes	41
2.5.6 Stoichiometry of Ho-Koj-CPC & Er-Koj-CPC complexes.....	42
2.5.6.1 Continuous variation method	42
2.5.6.2 Molar ratio method.....	42
2.5.7 Calibration curve of holmium and erbium by the studied dye and	

surfactant.....	43
2.5.8 The interference effect on holmium and erbium determination.....	43
2.5.9 Calibration curve of holmium and erbium with Koj and CPC using third-derivative.....	45
2.6.1 Separation of cerium.....	45
2.6.2 Separation of heavy rare earth elements.....	45
CHAPTER III	
3. Results and Discussions	47
3.1.1 Spectrum of kojic acid dye with holmium and erbium complexes.....	47
3.1.2 Effect of the pH variation on the absorption of the studied dye.....	50
3.2 Relevant factors affecting spectrophotometric determination of Ho-Koj-CPC & Er-Koj-CPC complexes	52
3.2.1 Optimization of the suitable buffer pH value of Ho-Koj-CPC & Er-Koj-CPC complexes	53
3.2.2 Optimization of kojic acid dye concentration.....	54
3.2.3 Optimization of CPC cationic surfactant concentration	56
3.2.4 Effect of duration time on the formation and stability of the Ho-Koj-CPC & Er-Koj-CPC complexes.....	57
3.2.5 Effect of sequence of addition on the formation and stability of the Ho-Koj-CPC & Er-Koj-CPC complexes.....	58
3.2.6 Stoichiometry of Ho-Koj-CPC & Er-Koj-CPC complexes	59
3.2.6.1 Continuous variation method	59
3.2.6.2 Molar ratio method.....	59
3.2.7 Calibration curve of holmium and erbium by the studied dye and surfactant.....	62
3.2.8 Studies of the interference effect on holmium and erbium	

determination.....	64
3.2.9 Calibration curve of holmium and erbium with Koj and CPC using third-derivative spectrophotometry.....	74
3.3 Separation of rare earth elements.....	76
3.3.1 Separation of cerium element.....	76
3.3.2 Separation of heavy rare earth elements.....	77
3.4 Application of the studied method using third derivative spectrophotometry on Ho and Er determination.....	78
3.4.1 Chemical analysis of the investigated REE synthetic samples.....	79
3.4.2 Chemical analysis of the investigated REE in two geological Concentrates.....	80
3.4.3 Statistical Evaluation of the results.....	81
3.4. 4 Standard Error.....	81
3.4.5 Results of studied determination method of Ho and Er measurements.....	86
Summary	87
References.....	89
Arabic summary.....	1

ACKNOWLEDGEMENT

ACKNOWLEDGEMENT

Before all I should express my deep thanks to ALLAH, without his great blessings, I would never have accomplished my work.

I would like to express my deep thanks to Prof. Dr. Salah A. Abo - El-Enein, Prof. of Physical Chemistry, Faculty of Science; Ain Shams University, for valuable guiding and encouragement

I am deeply indebted to Prof. Dr. Hisham k. Fouad, Prof. of Analytical Chemistry, Nuclear Materials Authority, for his valuable guiding and encouragement in all the time of research and writing of this thesis

Especially I am obliged to Dr. Nasr A. Abdel-Fattah, Ass. Prof. of analytical Chemistry, Nuclear Materials Authority, for his assistance and supporting me through the present work.

Moreover, Dr. Abdo A. Abdo, Lecturer of Analytical Chemistry, Nuclear Materials Authority, was acknowledged for being an open-minded personality, help during the work, and supporting me through the present work.

Especially, I would like to express my sincere gratitude to my parents and my wife whose sponsoring and praying enabled me to complete this work
