SOME STABILITY PROBLEMS IN MHD

THESIS

Submitted for the Award of
the Dgree of Doctor of Philosophy
in Science
(Applied Mathematics)

By

AZIZA ABDELMENIEM DEMERDASH MOHAMED

Department of Mathematics
Women's University College
Ain Shams University

SUPERVISOR

Prof. Dr. Samia S. Elazab

Professor
of Applied Mathematics,
Head of Mathematics Department

MY HUSBAND

MY DAUGHTER

MY SONS

ACKNOWLEDGEMENT

I am extremely grateful to **Dr. Samia S. Elazab**, Professor of Applied Mathematics, Department of Mathematics, Women's University College, Ain Shams University, for her continuous helping from the beginning till the end of this thesis, discussions and encouragement. I would like to thank her for suggesting the problems involved in this work and tackling its difficulties throughout her supervision of this work.

I would like also to thank Prof. Dr. Ahemd E. Radwan, Professor of Applied Mathematics, Department of Mathematics, Faculty of Scince, Ain Shams University, for his fruitful discussions and encouragement.

I am deeply grateful to Dr. N. A. Gad, Asst. Prof. in Women's Univ. College, Ain Shams Univ. for her great help, she offered for preparation of this work.

Finally my sincere thanks to the staff members of Mathematics Department, Women's University College, Ain Shams University.

CONTENTS

CONTENTS

	Page
SUMMARY	i
 CHAPTER I: INTRODUCTION.	
I.1 Hydrodynamic and Magnetohydrodynamic	
Basic Equations.....	1
I.2. The Boundary Conditions.....	4
I.3. The Concept of Stability.....	6
I.4. The Methods of Stability	8
I.5. The Previous Studies.....	9
I.6. The Present Work.....	11
 CHAPTER II: EFFECT OF VACUUM MAGNETIC FIELD ON THE GRAVITODYNAMIC STABILITY OF A STREAMING LIQUID JET.	
II.1. Introduction.....	14
II.2. Basic Equations and Equilibrium State.....	17
II.3. Perturbed State.....	19
II.4. Boundary Conditions and Dispersion Relation.....	24
II.5. Stability Analysis.....	26
II.6. Numerical Analysis.....	28
 CHAPTER III: EHD STABILITY OF AN IDEAL STREAM- ING LIQUID CYLINDER UNDER THE INFLUENCE OF SELF-GRAVITATING FORCES.	
III.1. Formulation of the problem.....	51

III.2. Basic Equations and Initial State.....	54
III.3. Perturbed State.....	57
III.4. Eigenvalue Relation.....	59
III.5. Stability Discussions.....	62
III.6. Numerical Analysis.....	64
III.7. Conclusion.....	66

CHAPTER IV: ELECTRODYNAMIC INSTABILITY OF A SELF-GRAVITATIONAL COMPOUND LIQUID JET.

IV.1. Formulation of the Problem and Basic Equations.	79
IV.2. Unperturbed State.	82
IV.3. Linearization and Solution.....	83
IV.4. General Discussion.....	90
IV.4.1. Gravitodynamic Stability.....	91
IV.4.2. Electrodynamic Stability.....	93
IV.4.3. Electrohydrodynamic Stability	94
IV.5. Numerical Discussions.....	94

CHAPTER V:SELF-GRAVITATING INSTABILITY OF TWO SEMI-INFINITE LAYERS UNDER THE INFLUENCE OF TANGENTIAL ELECTRIC FIELD.

IV.1. Introduction	119
IV.2. Formulation of the Problem and Basic Equation	120
IV.3. Unperturbed State.....	121
IV.4. Linearization and Solution.....	123
IV.5. Boundary Conditions and Dispersion Relation	126
