Profe.of Applied Textile Chemistry

Women's College, Ain Shams University

2-Prof. Dr. Abdel-Aziz Sharrouf

Associate Prof. Textile Engin.Department

National Research Center

ACKNOWLEDGMENT

I wish to express my deep appreciation to Prof. **Dr . WAFAA. A. ELSAYED**, Prof. of applied Textile Chemistry, Women's College, Ain Shams University, and the main supervisor for her valuable supervision, guidance, and effort in making this work.

It is also a pleasure for me to acknowledge Prof. Dr .**ABDEL-AZIZ. M. SHARROUF**, associate Prof., Textile Eng. Dept. National Research Center, for introducing the problem, supervision and guidance.

Thanks also go to the staff of Testing Lab, Textile Eng. Dept. National Research Center, for their assistance during carrying out of the laboratory testing

Special thanks to my wife for her cooperation and helping me. My sincere appreciation and acknowledgments are to my parents .Special dedication to my lovely son, Mohamed.

CONTENTS

Summary

Page Chapter I

Introduction	1
1 Review of literature	3
1-1 Definition of a seam	3
1-2 Definition of a seam pucker	3
1-3 Types of seam pucker	5
1-4 Causes of seam pucker	9
1-5 Factors affecting seam puckering	15
1-6 Measurement of seam puckering	22
1-6-1 Use of image processing in analyzing and evaluating seam pucker.	26
1-7 Some studies on seam puckering.	32
1-8 Study on seam puckering of synthetic fabric with varying sewing thread.	35
1-9 Study on seam puckering on thin coated fabrics	36
1-10 Seam properties	40
1-10-1 Seam strength	40
1-10-2 Seam tension strength	48

Chapter II

Experimental work	50
2-1 Objective	50
2-2 Material & Methods	51
2-3 Weaving	53
2-4 Sewing process	53
2.4.1 Sewing machine	53
2.4.2 Sewing thread	55
2.4.3 Sewing needles	55
2.4.4 Stitches & seams	57

2-5	Laboratory Testing	59
2.5.1	Samples preparation	59
2.5.2	Seam tensile strength	59
2.5.3	Seam elongation	60
2.5.4	Seam efficiency	60
2.5.5	Rating of seam pucker	60
2.6	Statistical methods	62

Chapter III

Results & discussion	65
---------------------------------	-----------

3-1	Factors influencing seam tensile strength.	65
3.1.1	Influence of fabric weight (g/m^2) on seam tensile strength	69
3.1.2	Influence of needle size on seam tensile strength	70
3.1.3	Influence of stitch density on seam tensile strength	72
3.1.4	Influence of seam type on seam tensile strength	73
3.1.5	Influence of fabrics type on seam tensile strength	74
3-2	Factors influencing seam elongation	103
3.2.1	Influence of fabric weight (g/m^2) on seam elongation	106
3.2.2	Influence of needle size on seam elongation	109
3.2.3	Influence of stitch density on seam elongation	110
3.2.4	Influence of seam type on seam elongation	111
3.2.5	Influence of fabrics type on seam elongation	113
3-3	Factors influencing seam efficiency	141

3.3.1	Influence of fabric weight on seam efficiency	145
3.3.2	Influence of needle size on seam efficiency	146
3.3.3	Influence of stitch density on seam efficiency	148
3.3.4	Influence of seam type on seam efficiency	149
3.3.5	Influence of fabrics type on seam efficiency	150
3-4	Factors influencing rating of seam pucker	179
3.4.1	Influence of fabric weight (g/m ²) on rating of seam pucker	184
3.4.2	Influence of needle size on rating of seam pucker	185
3.4.3	Influence of stitch density on rating of seam pucker	186
3.4.4	Influence of seam type on rating of seam pucker	187
	Results of Statistical analysis	215
	Optimization Test	219
	Conclusions	234
	References	236
	Summary in Arabic	245

LIST OF TABLES

Table(A.1): Seam tensile strength (kg) for lightweight

(80g/m ²) cotton fabrics	
Table(A.2): Seam tensile strength (Kg) for medium weight (130 g/m ²) cotton fabrics	79
Table(A.3): Seam tensile strength (Kg) for heavy weight (250g/m ²) cotton fabrics	82
Table(A.4): Seam tensile strength (Kg) for lightweight (80g/m ²) blended fabrics	85
Table(A.5): Seam tensile strength (Kg) for medium weight (130 g/m ²) blended fabrics	88
Table(A.6): Seam tensile strength (kg) for heavy weight (250g/m ²) blended fabrics	91
Table(A.7): Seam tensile strength (Kg) for lightweight (80g/m ²) polyester fabrics	94
Table(A.8): Seam tensile strength (Kg) for medium weight (130 g/m ²) polyester fabrics	97
Table(A.9): Seam tensile strength (Kg) for heavy weight (250g/m ²) polyester fabrics	100
Table(A.10): Seam elongation (%) for lightweight (80g/m ²) cotton fabrics	114
Table(A.11): Seam elongation (%) for medium weight (130g/m ²) cotton fabrics	117
Table(A.12): Seam elongation (%) for heavy weight (250g/m ²) cotton fabrics	120
Table(A.13): Seam elongation (%) for lightweight (80g/m ²)blended fabrics	123
Table(A.14): Seam elongation (%) for medium weight (130g/m ²) blended fabrics	126
Table(A.15): Seam elongation (%) for heavy weight (250g/m ²) blended fabrics	129
Table(A.16): Seam elongation (%) for lightweight (80g/m ²) polyester fabrics	132
Table(A.17): Seam elongation (%) for medium weight (130g/m ²) polyester fabrics	135
Table(A.18): Seam elongation for (%) heavy weight	138

(250g/m ²) polyester fabrics	
Table(A.19): Seam efficiency (%) for lightweight (80 g/m ²) cotton fabrics	152
Table(A.20): Seam efficiency for (%) medium weight (130g/m ²) cotton fabrics	155
Table(A.21): Seam efficiency (%) for heavy weight (250 g/m ²) cotton fabrics	158
Table(A.22): Seam efficiency for (%) lightweight (80g/m ²) blended fabrics	161
Table(A.23): Seam efficiency (%) for medium weight (130g/m ²) blended fabrics	164
Table(A.24): Seam efficiency for (%) heavy weight (250 g/m ²) blended fabrics	167
Table(A.25): Seam efficiency (%) for lightweight (80 g/m ²) polyester fabrics	170
Table(A.26): Seam efficiency (%) for medium weight (130g/m ²) polyester fabrics	173
Table(A.27): Seam efficiency (%) for heavy weight (250 g/m ²) polyester fabrics	176
Table(A.28): Rating of Seam pucker for lightweight (80 g/m ²) cotton fabrics	188
Table(A.29): Rating of Seam pucker for medium weight(130g/m ²) cotton fabrics	191
Table(A.30): Rating of Seam pucker for heavy weight (250g/m ²) cotton fabrics	194
Table(A.31): Rating of Seam pucker for lightweight (80 g/m ²) blended fabrics	197
Table(A.32): Rating of Seam pucker for medium weight (130g/m ²) blended fabrics	200
Table(A.33): Rating of Seam pucker for heavy weight (250g/m ²) blended fabrics	203
Table(A.34): Rating of Seam pucker for lightweight (80 g/m ²) polyester fabrics	206

Table(A.35): Rating of Seam pucker for medium weight (130g/m ²) polyester fabrics	209
Table(A.36): Rating of Seam pucker for heavy weight (250g/m ²) polyester fabrics	212
