ACKNOWLEDGMENT

I would like to express my thanks with my deepest gratitude to Prof. Dr. Fawzy Abd Elkader, Professor of Textile Printing Technology. Textile Printing Dyeing and Finishing Department. Applied Arts College, Helwan University for suggesting the Thesis Theme, for his valuable Supervision and sincere assistance and efforts.

Also I would like to express my deepest thanks with my greatest love and gratitude to Prof. Dr. Wafaa A. El-Sayed, Dean of Women's College Ain Shams University, Professor of Applied Textile Chemistry, for her consistent supervision, valuable sincere guidance, constructive suggestions, and providing all possible facilities to complete this work.

It is also a pleasure for me to acknowledge Prof. Dr. Samar Ali Mohamed Prof. Of Modeling in Clothing and Textile Dep. Home Economics College, Helwan University for her valuable supervision and sharing on suggesting the thesis theme.

I would like to thank all my College in Home Economics Dep. Women's College in Textile & Clothing Dep. For their sincere help and support Specially Dr. Maha El Adwi, Marwa khodory, and Dr. Abeer Ibrahim, Lecture of textile technology Faculty of applied arts, Helwan University.

Finally, I am grateful to my family for their lovely support, helps, encouragements, support and supplication to my God.

بسم الله الرحمن الرحيم
