Acknowledgment

First and for most thanks to Allah, the most beneficent and most merciful.

I would like to express my sincere appreciation and deepest gratitude to Prof. Dr. Ali Abou Elmagd Ahmad for his continuous supervision, illuminating guidance, constructive criticism and wise counsel as well as his support throughout this work.

I am greatly honoured to express my endless gratitude to Dr. Soumaya El Saied Hadhoud who gave me a great deal of her time in revising every item in this work.
