1. *Chlorophyll a* (Chl a) is the primary photosynthetic pigment in most plants and algae. It is a green pigment that absorbs light energy in the blue and red regions of the visible spectrum.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

To my
Beloved *Mother*.
N.G.

Acknowledgement

I would like to express my deepest thanks and sincere gratitude to **Professor Ahmed Okasha**, Professor of Neuropsychiatry, at Ain Shams University, for suggesting the topic of this review and for his great support and supply of recent literature. To whom I am deeply indebted for his instructive supervision.

I would like to express my profound gratefulness to **Dr. Ahmed Saad**, Associate Professor of Neuropsychiatry, at Ain Shams University, for giving me his great help, valuable assistance, and kind supervision.

I would like to express my indebtedness, gratefulness, and sincere appreciation to **Dr. Gihan El-Nahas**, Lecturer of Neuropsychiatry, at Ain Shams University, for her intensive support, valuable comments, and faithful guidance throughout the whole work.

Last but not least, words can not express my extreme thanks and gratitude to my **family** who surrounded me with understanding, patience, support, and help all through the period of this work as well as through all my life.
