بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

وَعَلَّمَكَ مَا لَمْ تَكُنْ تَعْلَمُ
وَوَكَانَ فَضْلُ اللَّهِ عَلَيْكَ
عَظِيمًا

اللَّهُ

الْعَظِيمُ

First of all I am very thankful and grateful to God for enabling me to accomplish my work and for the endless blessings he bestowed upon me.

To my mum and dad, words will never express how grateful I am to both of you, thank you for your endless love, sacrifice and for believing in me, I became the person who I am because of you; simply you mean the world to me and much more, I hope I will always live up to your expectations and make you proud.

To my wonderful sister, brother and nephews you make my world a better place, I feel lucky and blessed having you in my life.

And finally to my friends and family I am grateful to every single one who supported, loved and believed in me, sharing my life with you is a pleasure, thank you all.

Acknowledgement

I would like to express my deepest gratitude to **Dr. Mohamed Salah ELDin Ayoub**, Professor of Oral Pathology, Faculty of Dentistry, Ain-Shams University, for his supervision and his scientific guidance.

I would also like to deeply thank **Dr. Marwa Mokbel El Shafei**, Assistant Professor of Oral Pathology, Faculty of Dentistry, Misr International University, for her constant effort, support and advice.

My deepest appreciation and gratitude to **Dr. Dina Sabry Abd El Fatah**, Professor of Medical biochemistry and Molecular biology, Faculty of Medicine, Cairo University for her constant patience and devotion and for giving me her time and effort.

I am also grateful to **Dr. Mervet Moussa**, Professor of Oral Pathology, Faculty of Dentistry, Cairo University for her exceptional assistance.

And finally I would like to thank all the members of the Oral Pathology department at Ain-Shams University, for their encouragement and belief in me.
