سورة يوسف آية (76)

Acknowledgment

Firstly and before, all thanks to ALLAH that this research came to its end with God's will and help.

Words can not adequately express the feelings of graduates I have for those who helped me to complete this work.

It is a great honor to express my deepest gratitude, my sincerest feelings and my cordial appreciation to professor **Dr. Hany Said Sabry, Professor and Head of Tropical Medicine Department, Faculty of Medicine, Menoufiya University**, for his kind supervision, deep interest fatherly encouragement and helpful criticism.

I don't find words to express my gratitude and thanks to **Dr. Mohamed Alaa El-Din Nouh, Assistant Professor of Tropical Medicine, Faculty of Medicine, Menoufiya University**, for his endless support, continuous guidance advice and kind supervision during all stages of the work.

I am also greatly indebted and grateful to **Dr. Hussam Ibrahim Mohamed, Lecturer of Tropical Medicine, Faculty of Medicine, Menoufiya University**, for his endless support, continuous guidance advice and kind supervision during all stages of the work.

I am also deeply grateful and I would like to express my deepest appreciation to **Dr. Wafaa Ahmed Zahran, Assistant Professor of Microbiology, Faculty of Medicine, Menoufiya University**, for her sympathy, support, generous help advice and for the most appreciated time and effort he devoted to help me to complete this work.

My deep appreciation is extended to all members of the staff, for their help, support and all facilities they had offered to make this work possible.

Last but not least, I would like to offer my sincere thanks for all patients included in this work.

List Of Abbreviations

The abbreviation	Description
ALT	Alanin transaminase
ANC	Absolute neutrophil count
APIC	Association for Practitioners in Infection Control
AST	Aspartate transaminase
CBC	Complete blood picture
CBD	Common bile duct
CDC	Centers for disease control
CT	Computerized Tomography
D.bilirubin	Direct bilirubin
E.coli	Escherichia coli
ERCP	Endoscopic Retrograde Cholangio- pancreatography
EGD	Esphagogastro-duodenoscopy
ES	Endoscopic sphincterotomy
EVL	Esophageal Variceal ligation
FDA	Food and drug administration
GI	Gastro-intestinal
HIV	Human Immune Defecieny Virus
IV	Intravenous
LSD	Least Significant Difference test
MRI	Magnetic Resonance Imaging
NSAIDs	Non steroidal anti-inflammatory drugs
P.aeruginosa	Pseudomonas aeruginosa
PTC	Percutaneous Transhepatic Cholangiography
S. albumin	Serum albumin
Staph. aureus	Staphylococcus aureus

Strept. fecalis	Streptococcus fecalis
T.bilirubin	Total bilirubin
UGI	Upper gastro-intestinal
VIS	Variceal injection sclerotherapy
WBC	White blood cell

LIST OF TABLES

- ☒ Table (1): Age and Sex distribution among different studied groups .
- ☒ Table (2): Indication of G.I. endoscopy in different studied groups.
- ☒ Table (3): General examination in different studied groups.
- ☒ Table (4): Abdominal examination in different studied group.
- ☒ Table (5): Results of abdominal ultrasound in studied groups .
- ☒ Table (6): Haemogram of studied groups before endoscopy.
- ☒ Table(7): Comparison of Liver function tests of studied groups.
- ☒ Table (8): Comparison of Liver function tests of studied groups (cont.) .
- ☒ Table (9):The result of blood culture and isolated organisms in different groups.
- ☒ Table(10):The result of Throat swab and The isolated organisms in +ve throat swab culture in G1 and GIII .
- ☒ Table(11):The result of rectal swab and the isolated organisms in +ve rectal swab culture in GII .
