ACKNOWLEDGMENT

This work would never be crowned by success without the blessing of ALLAH to whom my loyalty will remain forever beyond any compromise.

I wish to express my sincere gratitude to *Prof. Dr. Mohammad Atef Abdel-Aziz Mostafa* , Dean of the South Egypt Cancer Institute and professor of Urology, Faculty of Medicine, Assiut University, for his great guideness, continuous advice, endless persistent support, genius constructive suggestions, giving me generously much of his time, effort and everlasting skillful help and without him this study can not be delivered to the life.

My sincere thanks and extreme gratitude are to *Prof. Dr. Nermeen Abdel Moneim Hassan Kamel*, Professor of Pathology, Faculty of Medicine, Assiut University, for her greatly skillful and useful help, for the time she spent in the accomplishment of practical part of this work, kind advice and continuous encouragement she gave throughout the course of this study.

I would like to express my deep thanks to, *Dr. Hesham Mokhtar Morsy Hammouda* , Assistant Professor of Urology, Faculty of Medicine, Assiut University , for his effective helps , continuous advice, keen interest, valuable suggestions and continuous support during the work .

I would like to express my particular thanks to *Dr. Rabab Mohamed H. EL-Ghorori*, Assistant Professor of Pathology, Faculty of Medicine, Assiut University, for her useful help.

I wish to record my appreciation and thanks to my professors and my colleagues in the *Department of Urology* and all that helped me in accomplishing this work. I would like to thank all the patients recruited in this study.

Ahmad Mokhtar Abdel-Rasheem
