ON SEMISIMPLE LIE ALGEBRAS AND SPECIAL FUNCTIONS

A Thesis
Submitted for the Ph. D. degree of Science
(Mathematics)
By

Medhat Ahmed Ibrahim Rakha
M. Sc., (Mathematics) 1992

Submitted to
Department of Mathematics
Faculty of Science
Suez Canal University

Supervised by

Prof. Mohamed H. Fahmi
Mathematics Department
Faculty of Science
Al-Azhar University

Ass. Prof. Tawfik M. Selim
Mathematics Department
Faculty of Science
Suez Canal University

Ass. Prof. Sherif I. Zaki
Mathematics Department
Faculty of Science
Suez Canal University

and

Ass. Prof. Robert A. Gustafson
Mathematics Department
Texas A & M University
College Station - Texas - USA

ACKNOWLEDGMENTS

Acknowledgments

First of all, it gives me a great pleasure to thank **Prof. Mohamed H. Fahmi**, *Professor of Mathematics, Math. Dept., Fac. of Science, Al-Azhar University*, for his continuous guidance and keen help during the period of this work.

It is also a pleasure for me to take this opportunity to thank **Dr. Tawfik M. Selim**, *Ass. Prof. of Mathematics, Math. Dept., Fac. of Science, Suez Canal University*, for the generous help he gave throughout preparation of the research plan of this thesis and his continuously advises throughout the whole work, without whom this work never be accomplished.

I would like to express my deepest gratitude and appreciation to **Dr. Robert A. Gustafson**, *Ass. Prof. of Mathematics, Math. Dept., Texas A & M University, College Station - Texas*, for his keen supervision, valuable help in reading, discussion and preparation for the main research point of this thesis. I am really indebted to him and his family for all what they did for me and my family during my stay in Texas A & M University, while doing the external research part of this thesis.

It is difficult for me to express in words my appreciation and sincere thanks to **Dr. Sherif I. Zaki**, *Ass. Prof. of Mathematics, Math. Dept., Fac. of Science, Suez Canal University*, for his advises, continuous encouragement, patience and brotherly guidance during writing out the work of this thesis.

Also, best wishes and my deepest appreciation to **Prof. S. C. Milne**, *Ohio State University*, **Prof. G. E. Andrews**, *Pennsylvania State University*, **Prof. I. G. Macdonald**, *Westfield College - University of London*, **Prof. W. J. Holman III**, *University of North Carolina* and **Prof. R. Askey**, *University of Wisconsin*, for their generous help in sending me all what we request from their research papers and valuable advises throughout the period of this work.
