**EVALUATION OF THE ROLE OF GLUTAMIC ACID
DECARBOXYLASE (GAD₆₅) AND INSULINOMA-
ASSOCIATED PROTEIN IA₂) AUTO-ANTIBODIES
IN THE PREDICTION AND EARLY DIAGNOSIS OF
TYPE 1 DIABETES MELLITUS**

Thesis

Submitted for Partial Fulfillment of
M.D. Degree in
Clinical & Chemical Pathology

By

Azza Abdel Rahman Saab
M.B., B. Ch. & M. S.

Supervised By

Prof. Gehan Kamal Hassan
Professor of Clinical & Chemical Pathology
Faculty of Medicine, Ain Shams University

Acknowledgement

First and for most, I feel always indebted to **Allah**, the kind and Merciful.

I would like to express my profound gratitude and sincere appreciation to Prof. **Gehan Kamal Hassan** Professor of Clinical and Chemical Pathology, Faculty of Medicine, Ain Shams University. for her valuable guidance, continuous encouragement and for giving me the privilege of working under her supervision .

I would like to express my thanks and gratitude to **Prof. Ola Hamdy El-Demerdash**, Professor of Clinical and Chemical Pathology, Faculty of Medicine, Ain Shams University, for her meticulous supervision and fruitful guidance and continuous support all through my work.

I would like to express my deep thanks and gratitude to **Dr. Arig Aly Seif**, Assistant Professor of Clinical and Chemical Pathology, Faculty of Medicine, Ain Shams, for her unlimited support great patience and endless cooperation she offered me all through my work.

My sincere appreciation goes to **Dr. Ghada Mohamed Sadek Sabbour**, Lecturer of Clinical and Chemical Pathology, Faculty of Medicine, Ain Shams University, for her great effort kind help and valuable advice, she gave me in every step through out my thesis.

I am greatly indebted to **Dr. Eman Monir Sherif**, Lecturer of Pediatric, Faculty of Medicine, Ain Shams University, for her sincere and immense help.

A special thanks must be mentioned to **Dr. Manal Abd El-Baki Mahmoud**, Lecturer of Clinical Pathology, Faculty of Medicine, Ain Shams University , for her constructed advice and helpful contribution to success of this study.
