ACKNOWLEDGEMENT

First of all prayerful thanks are to our Allah who gives me every thing I have.

I would like to acknowledge Prof. Dr. H. A. Torkey, Professor of Microbiology, Faculty of Veterinary Medicine, Alexandria University for his supervision, interest and advice. His encouragement and guidance are deeply and heartily appreciated.

Great acknowledgement and sincere gratitude are due to Prof. Dr. Mohamed A. Akeila Professor of Microbiology, Faculty of Veterinary Medicine, Alexandria University, as well as expressing my gratefull appreciation and deepest gratitude for his kind supervision, interest, encouragement, valuable advice and guidance during the progress of this work.

My appreciation and cardial thanks are due to Prof. Dr. Sami Khaliel, Professor of Microbiology, Faculty of Veterinary Medicine, Alexandria University for his valuable advice, Faithful help, critical discussions, continuous encouragement, and his unfailing help throughout the practical part of this thesis.

I wish to express my sincere gratitude for the kindness and encouragement of Dr. Gaber S. Abdellatif,, Lecturer of Microbiology, Faculty of Veterinary Medicine, Alexandria University for his interest, helpful discussions and for kindly reviewing this manuscript.

I gladly acknowledge all those who have so kindly helped me in the fulfillment of this work especially Dr. Mahmoud M. El-Naggar and Dr. Emad M. El-Ebshihy, Assistant Lectureres at the department of Microbiology, Faculty of Veterinary Medicine, Alexandria University.
