Acknowledgement

First of all thanks GOD who gave me the power to achieve this work

It is a great honour to express my deep gratitude and appreciation to Prof. *Dr. Nadia Lotfy El Ansary* Professor of Internal Medicine. I am very grateful for his whole hearted support expert advice and enthusiastic help shown to me while under her supervision.

I would also like to express my deep gratitude and respectful thanks to *Prof. Dr. Malak Hassan Bahgat* Prof. Of Internal Medicine for her kind guidance and supervision.

I am deeply grateful to assist Prof. *Dr. Fatma El Zahraa Hassan Bahgat* assist Prof. of Clinical Pathology, from whom I received valuable assistance, encouragement helpful instructions and enthusiastic stimulation throughout the whole work.

Specially I would like to thank my father my mother, my sisters & Dr. Nancy Eskander for their great help, encouragement & support.

Last but not least, I would like to thank all members who shared in preparation, writing and revising this thesis.

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.
