بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

﴿قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا عَلَّمْتَنَا
إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ﴾

سورة البقرة (آية ٣٢)

بِسْمِ اللَّهِ
الرَّحْمَنِ الرَّحِيمِ

Acknowledgments

At first and foremost thanks to "*Allahi*" who gave me the power to finish this work.

I find no words by which I can express my deepest thanks and gratitude to my honored *Prof. Dr. Hamed Mahmoud Shatla*, Professor of Pediatrics, Faculty of Medicine, Ain Shams University and governor of Sharkiya governorate, for the continuous kind encouragement, support and guidance, he gave me throughout the entire work. It has been an honour and privilege to work under his generous supervision.

Also, I would like to express my deepest thanks and appreciation to *Prof. Dr. Mohamed Anwar El Etribi*, Professor and Head of Neurology Department, Faculty of Medicine, Ain Shams University, for his great support, valuable time, careful supervision and continuous advice which helped me to overcome numerous difficulties.

I am also deeply grateful and I would like to express my sincere thanks to *Prof. Dr. Hamed Ahmed El Khayat*, Professor of Pediatrics, Faculty of Medicine, Ain Shams University, for his great help and support, continuous contributions, sincere guidance and helpful suggestions throughout this work.

I would like to express my deepest gratitude to *Assistant Prof. Dr. Omnia Fatthy El Rashiedy*, Assistant Professor of Pediatrics, Faculty of Medicine, Ain Shams University, for her continuous encouragement, valuable instructions and advices. Without her effort, this work would not have appeared in this form.

I am very grateful to *Dr. Azza Abdel Naser Abdel Azziz*, Lecturer of Neurology, Faculty of Medicine, Ain Shams University, for her efforts, help and assistance, which helped me to overcome many difficulties.

I also wish to extend my thanks to *Assistant Prof. Dr. Karima Maher*, Assistant Professor of Radiodiagnosis, Faculty of Medicine, Ain Shams University, for her interesting way in teaching me the various methods of neuro-imaging assessment in this work.

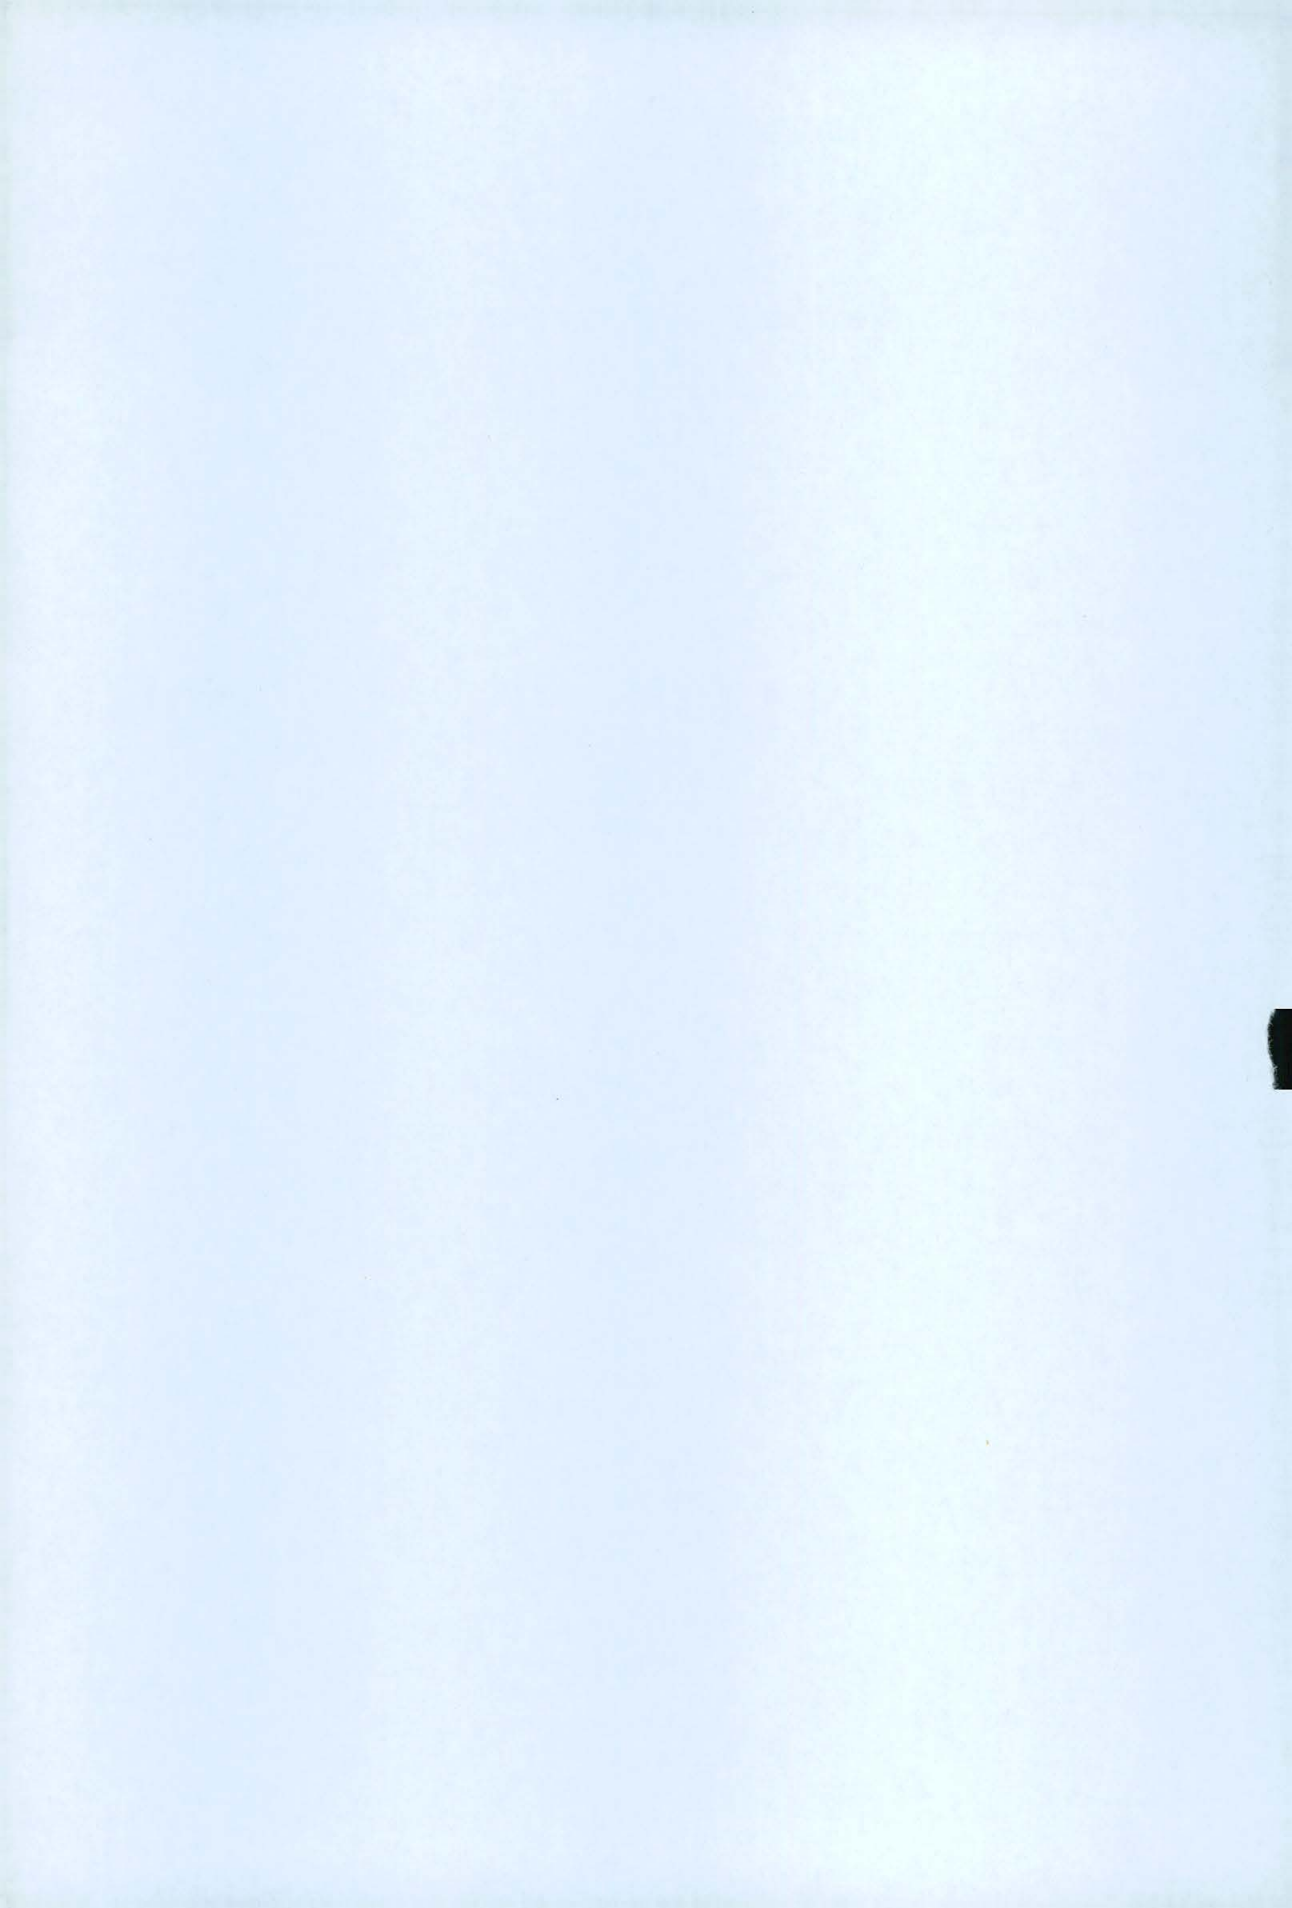

A word of appreciation is due to my colleagues, *Dr. Ahmed Gaber, Dr. Lobna Nabil, Dr. Amal Fouad, Dr. Salma Hamid Khalil* and to every one who participated in a way or another in this work.

Last but not least, I would like to thank my patients who were the corner stone of this study wishing them recovery.

Amira Gamal Ramadan

	Page
List of abbreviations	i
List of tables	v
List of figures	x
List of plates	xiv
Introduction	1
Aim of the work	2
Review of literature	3
• Control of posture and movement	3
• Cerebral dysfunction and ataxia in childhood	6
• Movement disorders & disorders of the basal ganglia	32
• Neuro-physiological studies:	60
1. Nerve conduction studies	60
2. Somato-sensory evoked potentials (SSEP)	81
3. Electroencephalography	100
• Neuro-imaging modalities:	110
Subjects and methods	123
Results	141
Discussion	229
Summary and conclusion	259
Recommendations	265
References	267
Appendix	xvi
Arabic summary	

List of Abbreviations

AD:	Autosomal-dominant
ADCA:	Autosomal-dominant cerebellar ataxia
Ampl:	Amplitude
AR:	Autosomal-recessive
AVED:	Ataxia with vitamin E deficiency
BAEPs:	Brain stem auditory evoked potentials
BDNF:	Brain-derived neurotrophic factor
CAG:	Cytosine-Adenine-Guanine
CCT:	Central conduction time
cm:	Centimeter
CMAP:	Compound motor unit action potential
CNS:	Central Nervous system
CP:	Cerebral palsy
CSF:	Cerebrospinal fluid
CT:	Computed Tomography
CV:	Conduction velocity
DYT:	Idiopathic torsion dystonia
EA:	Episodic ataxia
EB virus:	Ebstein Barr virus

List of Abbreviations

ECT:	Electro-convulsive therapy
EEG:	Electroencephalography
EMG:	Electromyography
EOCA:	Early onset cerebellar ataxia
EP:	Evoked potential
EPc:	Erb's point contralateral
EPi:	Erb's point ipsilateral
Extra-Δ	Extra-pyramidal
FA:	Friedreich's ataxia
GAA:	Guanine-adenine-adenine
GABA:	Gamma amino butyric acid
HD:	Huntington disease
HMSN:	Hereditary motor-sensory neuropathy
Ig:	Immunoglobulins.
IG:	Intelligence quotient
INH:	Isoniazid
IPL:	Inter-peak latency
ISD:	Inter-side difference
Lat:	Latency
