ACKNOWLEDGMENT

"I would like to begin by thanking God for granting me the ability to complete this work".

It is with deep appreciation and gratitude that I acknowledge the great help of Prof. Dr. Alaa eldin Mohamed Kamal Eletribi, Professor of Obstetrics and Gynaecology, Faculty of Medicine, Ain Shams University, for his kind assistance and continuous support and supervision which were essential for the completion of this work.

I would also like to express my thanks and appreciation for Dr. Tarek Tamara, Lecturer of Obstetrics and Gynaecology, Faculty of Medicine, Ain Shams University, for his sincere help and continuous guidance throughout this work.

I would also like to thank my family for their continuous support.

CONTENTS

1. Introduction	2
2. Review	
Chapter 1 : Ploycystic Ovary	7
Chapter 2 : Hypothalamic Pituitary Relationship.	40
Chapter 3 : Hormonal Profile in PCO.	63
chapter 4 : Diangosis of PCO.	75
Chapter 5 : PCO Evaluation.	85
Chapter 6 : Laparoscopic Ovarian Electrocautery in Treatment of PCO.	103
3. Patients and Methods.	113
4. Results.	117
5. Discussion and Recommendation.	134
6. Summary.	140
7. References.	143
8. Arabic Summary.	172

List of Tables

Table	Page
1- Clinical features of PCOD patients according to Takai et al. (1991)	81
2- Clinical and ultrasonographic data of the study.	119
3- Comparison of LH level before & after the procedure.	120
4- Comparison of FSH Values Pre - and post - operative.	122
5- Testosterone values before and after the operation.	123
6- Comparison of Progesterone level before and after the operation.	125
7- Correlation between the change in values of the hormones measured.	127

List of Figures

Figure	Page
1- Transvaginal U/S scan of left ovary of a PCOD patient.	115
2- Comparison of LH level before & after procedure.	121
3- Comparison of FSH values pre & postoperative.	122
4- Testosterone values before and after the operation.	124
5- Comparison of Progesterone level before and after the operation.	126
6- Correlation between the change in LH & FSH values.	128
7- Correlation between the change in LH & testosterone values.	129
8- Correlation between the change in LH & progesterone values.	130
9- Correlation between the change in FSH & testosterone values.	131
10- Correlation between the change in FSH & progesterone values.	132
11- Correlation between the change in testosterone and progesterone values.	133
