بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

﴿ قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا عَلَّمْتَنَا

﴿ إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ

صَدَقَ اللَّهُ الْعَظِيمُ

[البقرة : ٣٢]

Acknowledgement

First and foremost, thanks and praise GOD, Most Gracious, Most Merciful.

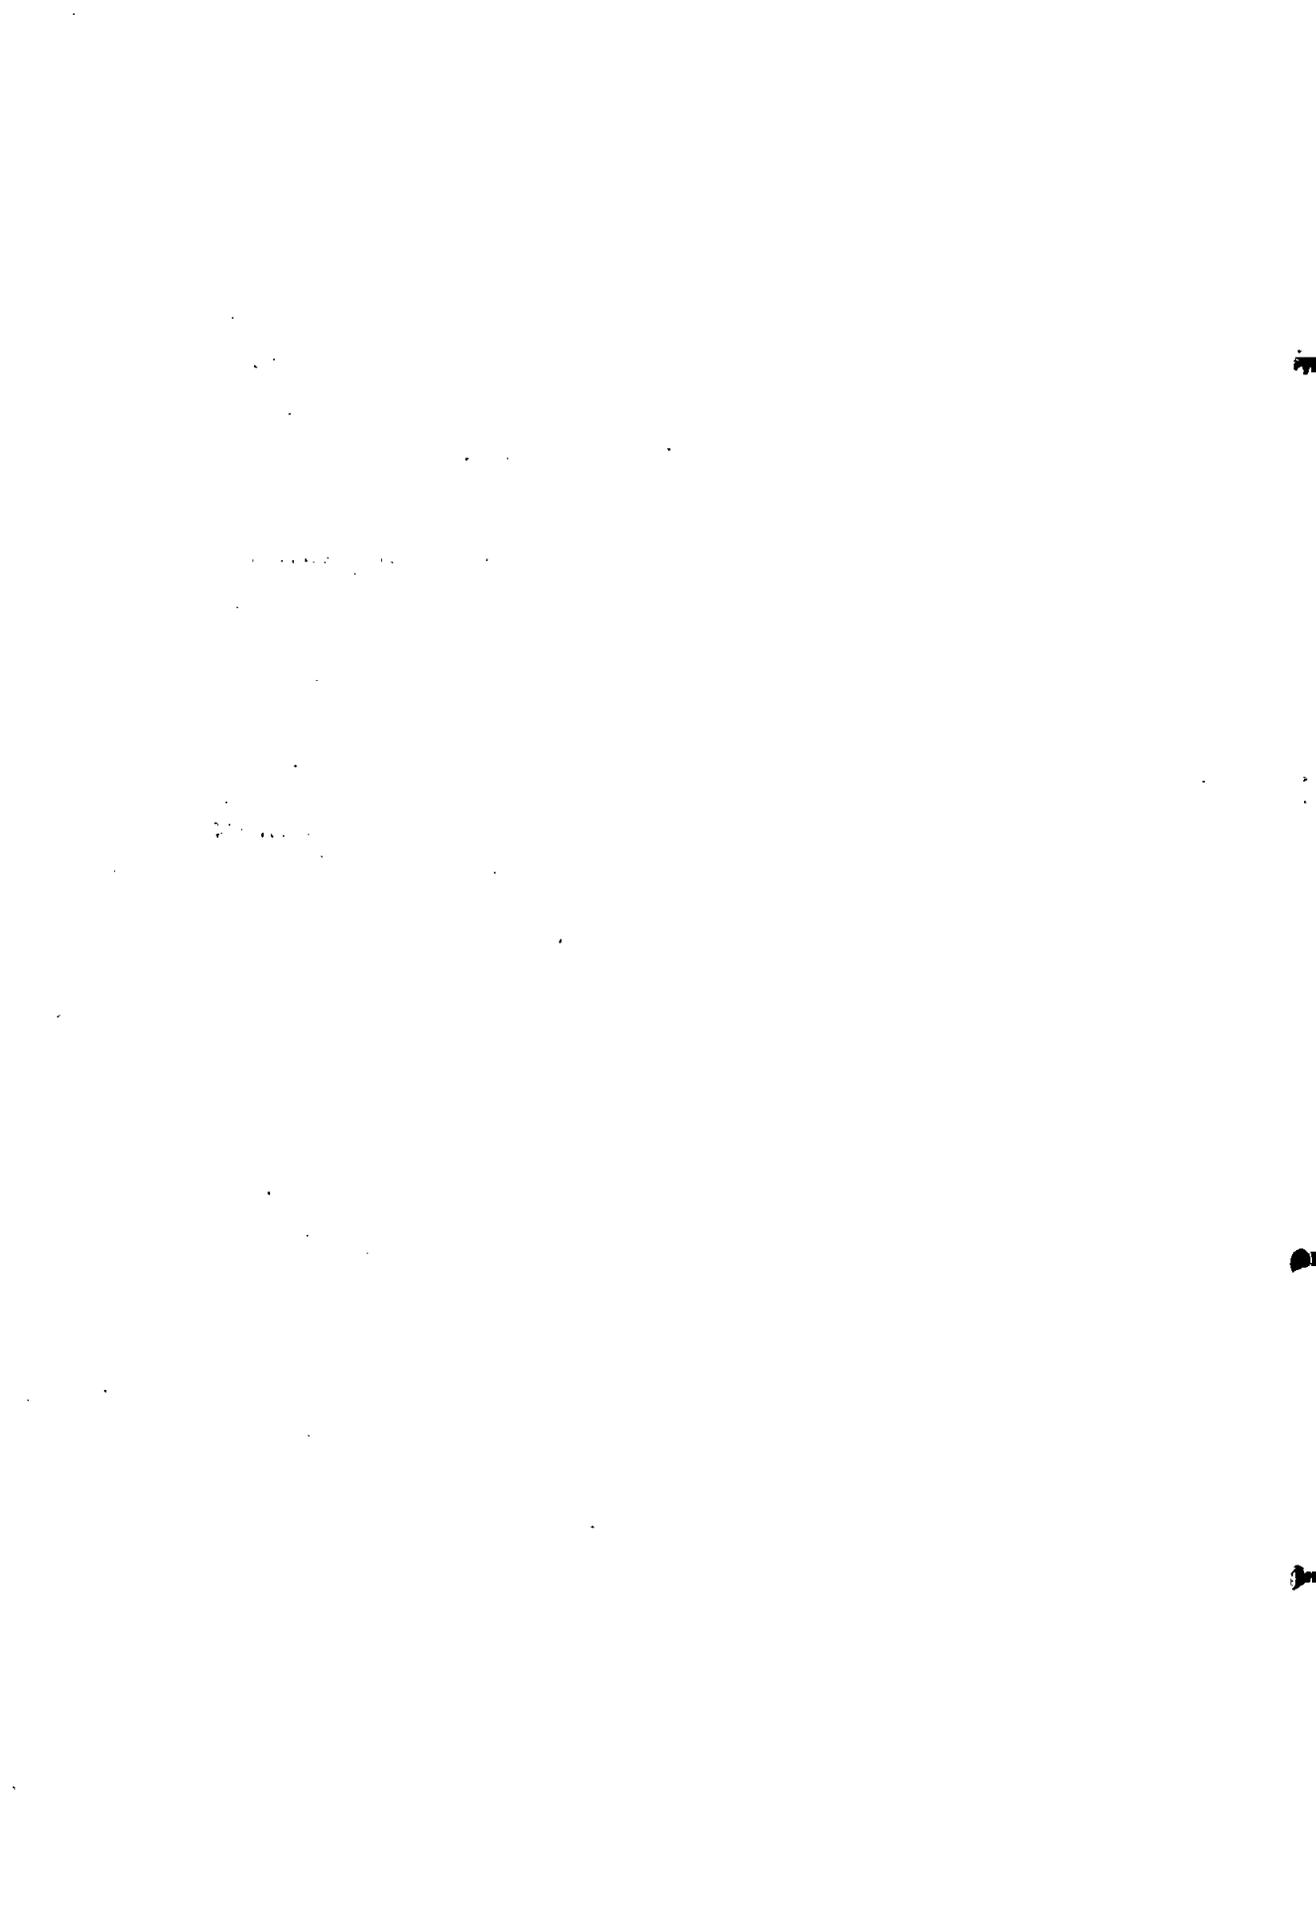

I am grateful expressing my sincere appreciation to Prof. Dr. Shamel Abd-Allah Aly, Prof. of General Surgery, Faculty of Medicine, Ain Shams University, for his generous encouragement, continuous care and kind help through this work.

I wish to express my deep gratitude and appreciation to Dr. Saad Salah El-Fayoumy, Assistant Prof. of Plastic and Reconstructive Surgery, Faculty of Medicine, Ain Shams University, for his great effort, meticulous supervision and valuable advice throughout the work. The idea of this study was his idea from the first.

I also express my sincere thanks and appreciation to Dr. Amr Magdy Sayed Mahmoud, Lecturer of Plastic and Reconstructive Surgery, Faculty of Medicine, Ain Shams University, he did not spare any effort in helping me, and his valuable advice was essential to perform this work on the best way.

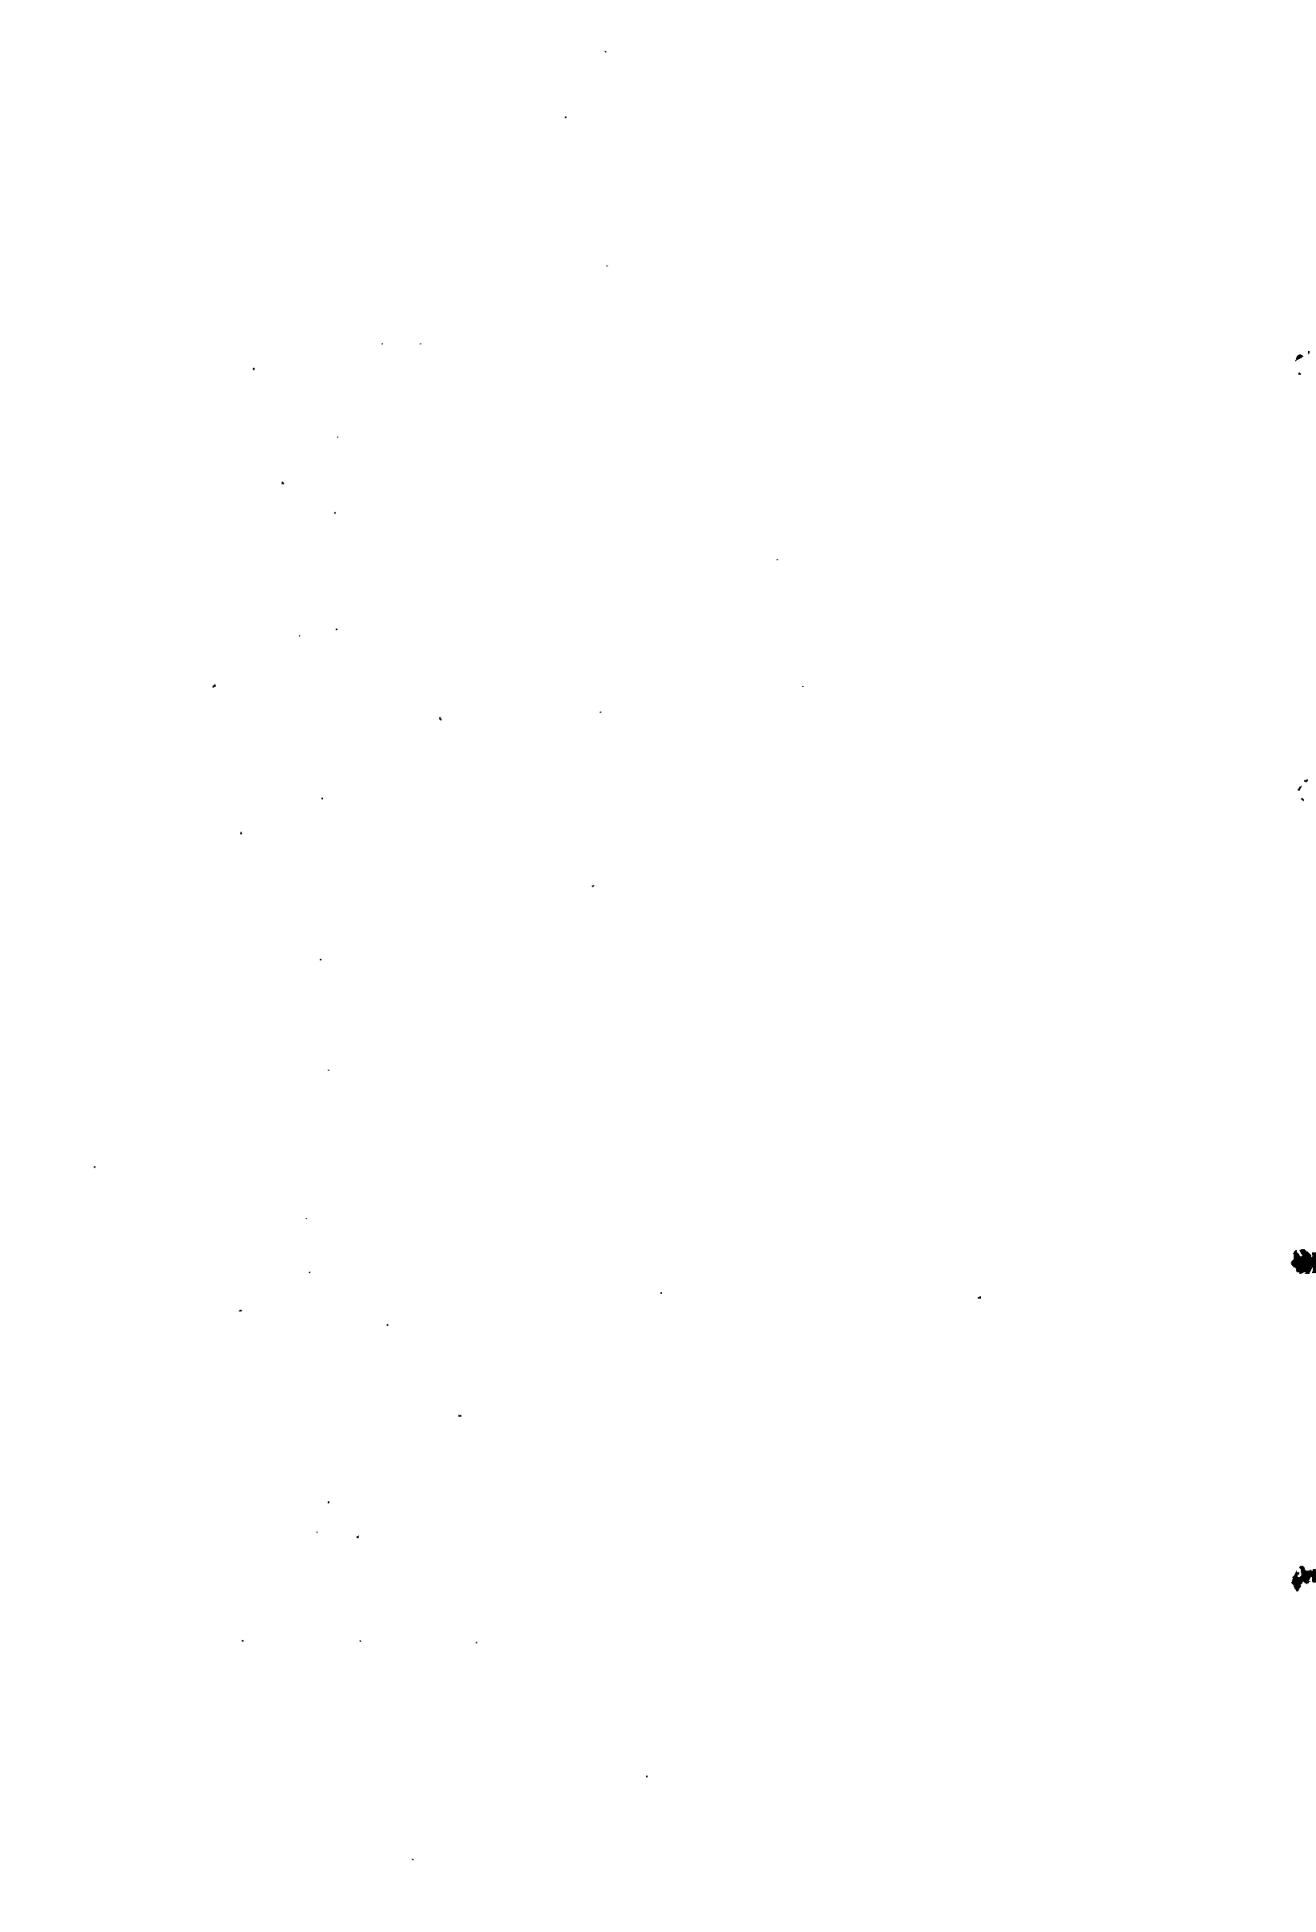

I wish to express my debt to Prof. M. Hemida and all the members of the Plastic Surgery Department of Ain Shams University.

Words fail to express my great thanks to Dr. Mohamed Abdel-Aal, for his great help throughout this work. I also wish to thank all the members of the laser unit for their effort to help me all the time.

LIST OF TABLES

<u>Tab. No.</u>	<u>Title</u>	<u>Page</u>
1	Collagen types	10
2	Growth factors involved in wound healing	17
3	Cytokine involvement in wound healing functions.....	19
4	Histopathological features of keloid and hypertrophic scars.....	28
5	Pathogenesis of normal and abnormal wound healing.....	36
6	Surgical laser properties.....	67
7	Characters of the 35 patients of this study as regard age, sex and skin type	100
8	Properties of the PDL and Nd: YAG laser of this study.....	100
9	Scar aetiology	123
10	Scar site and average number of the sessions for each site.....	123
11	The relation between number of patients and previous treatments.....	124
12	The description of patients of group I.....	124
13	Results of clinical improvement of group I.....	125
14	The description of patients of group II	125
15	Results of clinical improvement of group II	126
16	The description of patients of group III.....	126
17	Results of clinical improvement of group III.....	127
18	Relation between improvement of symptoms of pain and/or pruritis and scar duration	127

19	Relation between improvement of scar colour and scar duration.....	128
20	Relation between improvement of scar consistency and scar duration.....	128
21	Relation between improvement of scar size, scar duration and type of session.....	128
22	Relation between improvement of symptoms of pain and/or pruritis and scar site	129
23	Relation between scar colour improvement and scar site	129
24	Relation between scar consistency improvement and scar site.....	130
25	Relation between scar size improvement and scar site	130
26	A. Description of cosmetic outcome of patients of group I.....	131
	B. Results of cosmetic outcome of group I.....	131
27	A. Description of cosmetic outcome of patients of group II	131
	B. Results of cosmetic outcome of group II.....	131
28	A. Description of cosmetic outcome of patients of group III	132
	B. Results of cosmetic outcome of patients of group III	132
