LIST OF CONTENTS

	Page
CHAPTER (I)	
INTRODUCTION	1
CHAPTER (II)	
GEOMORPHOLOGIC CHARACTERISTICS	9
A-Geomorphologic characteristics of Bahariya depression.-----	9
a- The plateau surface.-----	11
b- The bounding escarpments.-----	11
c- The depression floor-----	13
1- The residual hills.-----	13
2- Volcanic cones and sheets.-----	14
3- Alluvial fans and terraces.-----	14
4- Dry, wet sabkhas and playas-----	14
5- Sand sheets and sand dunes-----	17
6- Man made landforms.-----	17
7- Cultivated land-----	17
B-Geomorphologic characteristics of Farafra depression.-----	17
a- The plateau surface.-----	20
b- The bounded escarpments.-----	20
c- Pediment.-----	20
d- The depression floor.-----	22
1- Residual hills.-----	22
2- Sand sheets and sand dunes.-----	23
3- Playas-----	23
4- Cultivated lands.-----	24

CHAPTER (III)
GEOLOGIC SETTING

	26
A- LITHOSTRATIGRAPHY-----	26
1- Cambrian.-----	26
2- Pre Cenomanian.-----	26
3- Cenomanian.-----	28
a- Lower Cenomanian (Bahariya Formation)-	28
b- Upper Cenomanian (Heiz Formation)-----	28
4- Campanian-Turonian (Hafhuf Formation)----	29
5- Maestrichtian (Khoman/Farafra Chalk formation.-----	30
6- Maestrichtian-Danian (Dakhla Formation)---	30
7- Upper Paleocene (Tarawan Formation)-----	33
8- Late Paleocene-Early Eocene (Esna Shale Formation-----	33
9- The Eocene Limestone.-----	34
10- Oligocene rocks.-----	34
a- Radwan Formation.-----	34
b- Basalts and Dolerite rocks.-----	35
11-Quaternary deposits.-----	35
B-SURFACE GEOLOGIC STRUCTURES-----	36
1-SURFACE STRUCTURES OF BAHARIYA -	36
2- SURFACE STRUCTURES OF FARAFRA --	40
C- SUBSURFACE CORRELATION OF THE LOWER CENOMANIAN AND PRE- CENOMANIAN NUBIA SERIES IN BAHARIYA AND FARAFRA DEPRESSIONS.-----	45
a- The lower Cenomanian Nubia successions.--	45
1- The clay rock unit (C3).-----	51
2- The sandstone rock unit (S3&A).-----	51
3-The clay rock unit (C2&B).-----	57
4- The ferruginous sandstone rock unit	

· (S2&C).-----	65
b-The Pre Cenomanian Nubia successions.---	73
D- GEOLOGIC HISTORY-----	73

CHAPTER (IV)

HYDROGEOLOGICAL CONDITIONS OF NUBIA SANDSTONE AQUIFER SYSTEM	77
General outline.-----	77
NUBIA SANDSTONE AQUIFER SYSTEM-----	77
1- The sandstone water bearing zone (S3&A).---	81
2-The ferruginous sandstone water bearing zone (S2&C).-----	91
3- The sandstone water bearing zone (S1).-----	101
The impact of the local structures on the groundwater conditions.-----	103

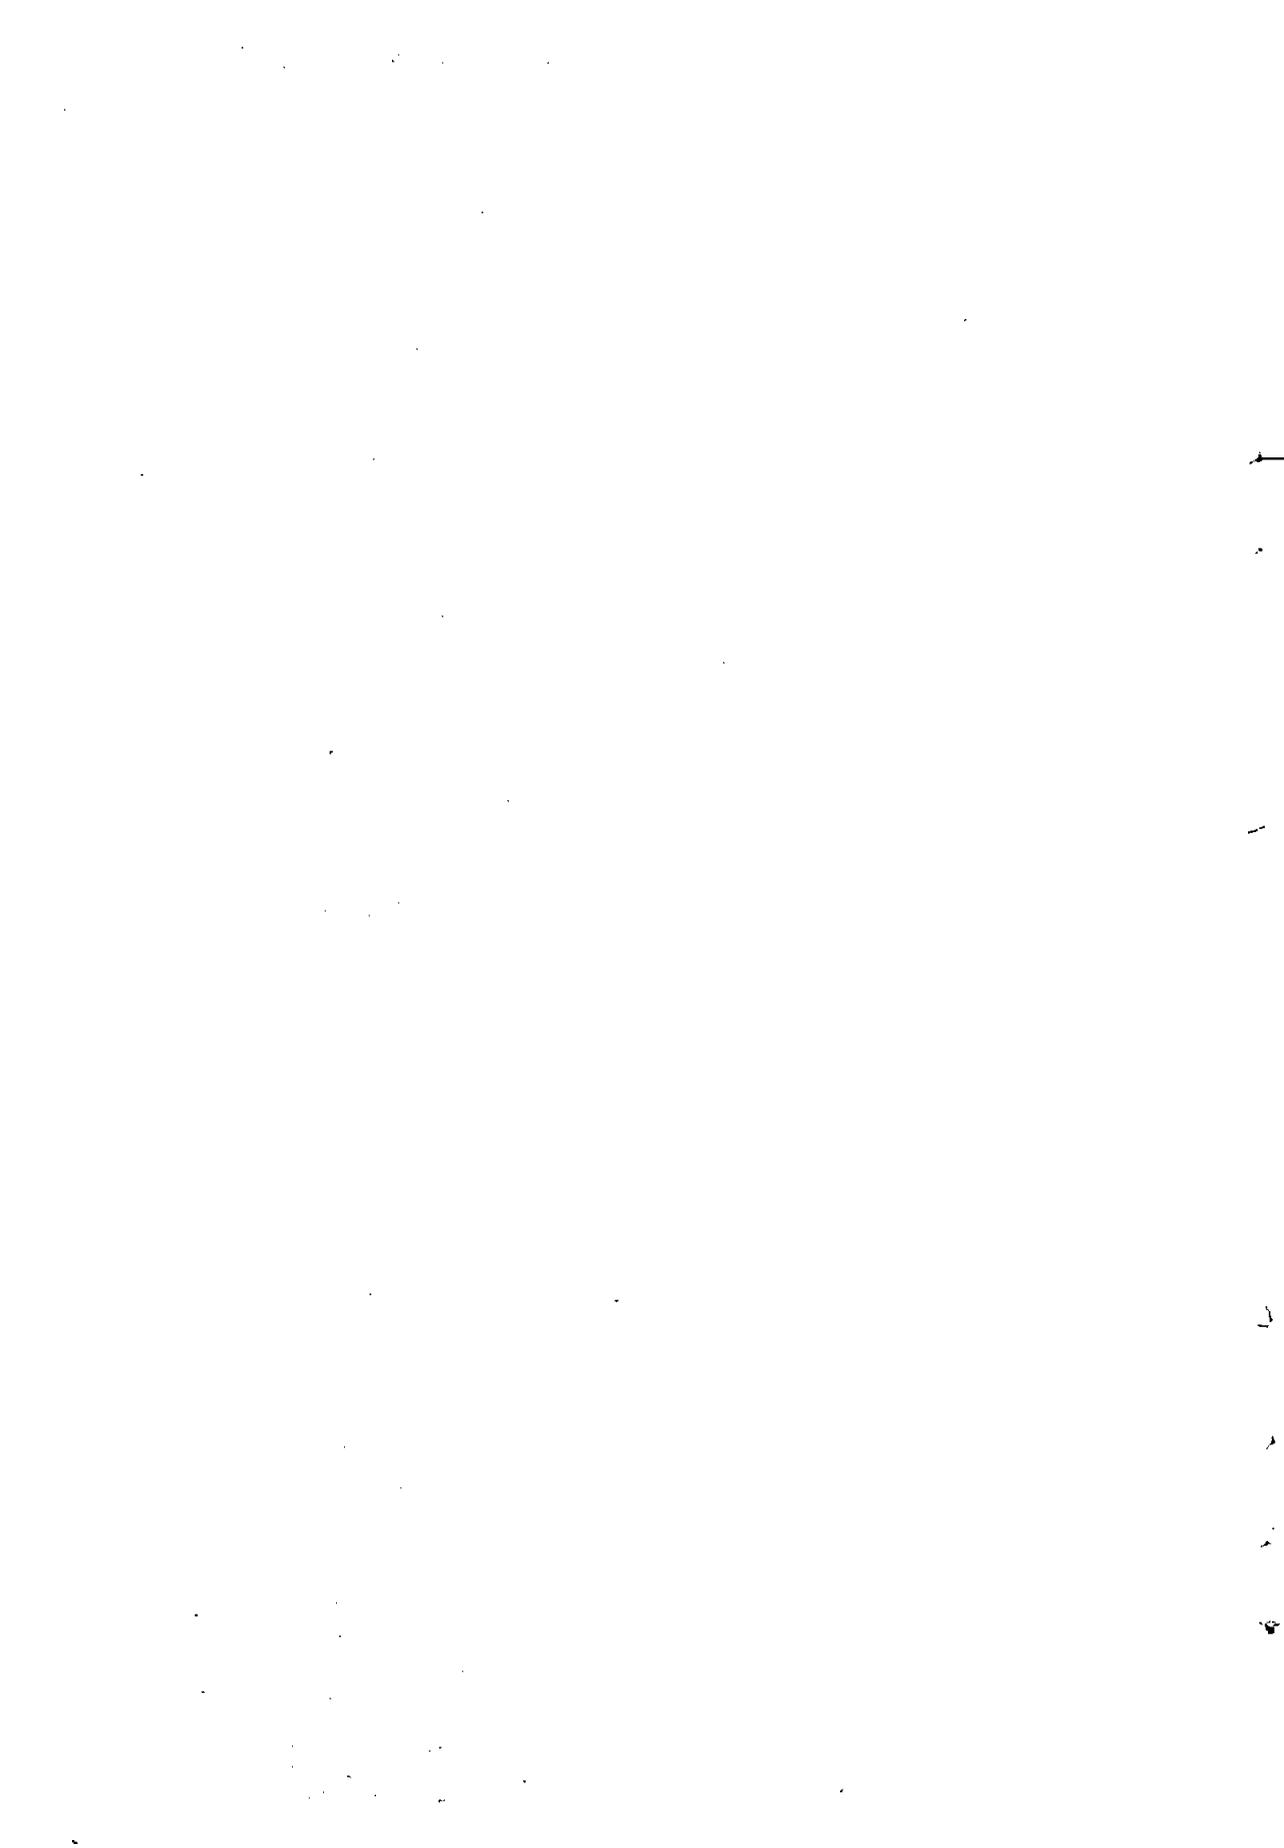

CHAPTER (V)

HYDROGEOCHEMICAL CHARACTERISTICS AND QUALITY EVALUATION

The hydrogeochemical composition.-----	105
I- Geochemical composition-----	111
a- The total salinity and Ph	111
1- The sandstone water bearing zone (S3&A)-----	111
2- The ferruginous sandstone water bearing zone (S2 & C).-----	112
3- The sandstone water bearing zone (S1).--	112
b- Ionic dominance -----	112
1- The sandstone water bearing zone (S3&A)-----	112
2- The ferruginous sandstone water bearing zone (S2 & C).-----	113
3- The sandstone water bearing zone (S1).--	114

c-	The hypothetical salt assemblages.	114
1-	The sandstone water bearing zone (S3&A)-----	114
2-	The ferruginous sandstone water bearing zone (S2 & C).-----	117
3-	The sandstone water bearing zone (S1).-	117
d-	The hydrochemical coefficients.-----	123
II-	Geochemical classification of groundwater.-	124
a-	Trilinear Diagrame.-----	124
1-	The sandstone water bearing zone (S3&A)-----	125
2-	The ferruginous sandstone water bearing zone (S2 & C).-----	125
3-	The sandstone water bearing zone (S1).-	125
b-	Sulin's Diagram(1948)	125
1-	The sandstone water bearing zone (S3&A)-----	128
2-	The ferruginous sandstone water bearing zone (S2 & C).-----	128
3-	The sandstone water bearing zone (S1).-	131
c-	Ovichinikove's Diagram (1963).	131
1-	The sandstone water bearing zone (S3&A)-----	131
2-	The ferruginous sandstone water bearing zone (S2 & C).-----	134
3-	The sandstone water bearing zone (S1).-	134
III-	The hydrogeochemical formation.-----	134
IV-	Evaluation of groundwater.-----	137
1-	Characteristics of groundwater for domestic Uses.-----	137
2-	Characteristics of groundwater for irrigation purposes-----	138
a-	Total dissolved salts.-----	139
b-	Sodium.-----	139

c- Wilcox's classification.-----	139
d- The U.S. salinity laboratory staff's classification-----	141
e- Irrigation Factor (a)-----	143
3- Characteristics of groundwater for livestock.	146
SUMMARY AND CONCLUSION.	147
RECOMMENDATIONS.	157
REFERENCES.	158
APPENDICES	165

ACKNOWLEDGEMENT

The author is greatly indebted to **Prof. Dr. E. A. Korany**, Professor of hydrogeology, Geology Department, faculty of science Ain Shams University and **Prof. Dr. F. A. Hammad, Emeritus prof.** Geology Department, Desert Research Center, for the supervision of the present work, unfailing help and continuous advice.

Also, my thanks to **Prof. Dr.M. M. El-Ghazzawi** Head of the Geology Department, Desert Research Center, and **Prof. Dr.M. A. Mabrouk**, for their help during the writing of this work.

My sincere thanks to all staff members of the Geology Department of the Desert Research Center, especially **Dr. T.Aggour** and **Dr. A. Shabana**, for their help during the office work.

I am particularly indebted to my mother and my wife for their kind encouragement and help during the progress of the work.
