Acknowledgment

*My deepest gratitude and thanks to **God** the most merciful for guiding me through and giving me the strength to complete this work the way it is.*

*I find no words by which I can express my deepest thanks and profound respect to my honored professor, **Major General Dr. Ahmed Magdi**, Chief of the staff Cardiothoracic Units Military Medical Services, for the continuous kind encouragement, guidance and support he gave me throughout the whole work. It has been an honour and a privilege to work under his generous supervision.*

*It is a great hour for me to take this opportunity to express my most profound gratitude and my deepest respect to **Professor Dr. M. Monir El Saegh**, professor of Cardiothoracic Surgery, Faculty of Medicine, Ain Shams University, for continuous encouragement and valuable help in revising and reforming this study.*

*Also, I would like to express my deepest thanks and appreciation to **Professor Dr. Ibrahim Abd El Naby**, Professor of General Surgery, Faculty of Medicine, Ain Shams University for their great support, valuable time, careful supervision and continuous advices which helped me to over come many difficulties.*

*I am also deeply grateful and would like to express my sincere thanks and gratitude to **Professor Dr. Khaled Mansour**, Assistant Professor of Cardiothoracic Surgery, Faculty of*

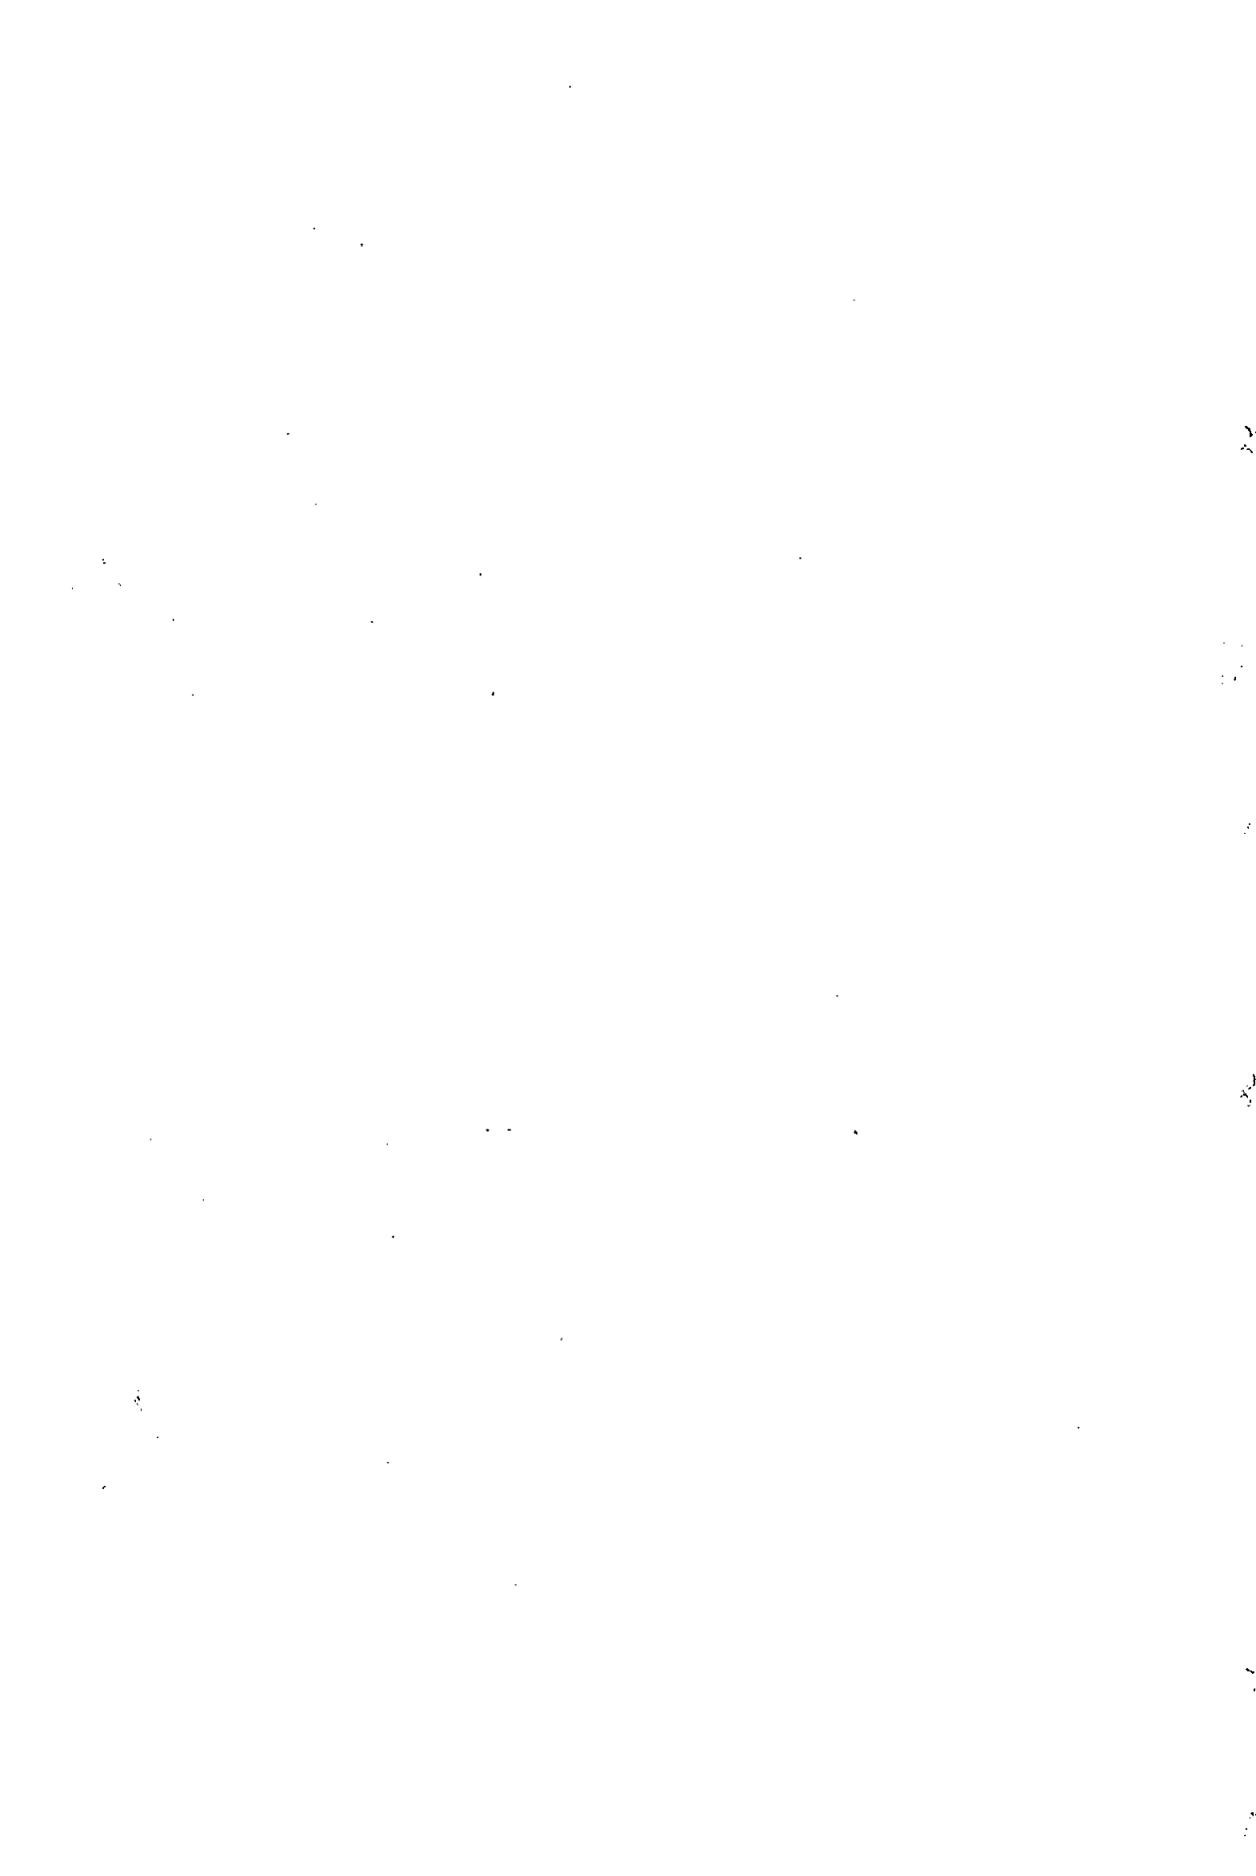

Medicine, Ain Shams University, for his great help and continuous contributions in the practical part of this work.

I am greatly indebted to all my staff members in the Cardiothoracic department, for the great support and help offered throughout this study, to my colleagues and to everyone who participated in a way or another in this work, I owe my thanks and appreciation.

Amr Abd El Salam Abo El Naser

CONTENTS

Introduction and Aim of the Work	1
Historical review	3
Techniques of CPB	5
Pathophysiology of CPB:	
* Hemodilution, hypothermia, anticoagulation	15
* Myocardial protection during cardiac surgery	24
* Inflammatory response to CPB	39
* Electrolyte disturbance	46
* Embolic events and CPB	51
* Immune response to CPB	63
Complications of CPB:	
* Pulmonary complications	69
* Cardiovascular complications	77
* Gastrointestinal complications	84
* Neurological complications	89
* Renal complications	98
Summary	105
