السلامة آية ١١٣

Acknowledgment

My deepest gratitude and thanks to God-the most merciful for guiding me through and giving me the strength to complete this work the way it is.

It is a pleasure to express my deepest thanks and profound respects to my honored professor, *Prof. Dr. Nancy Abd El Aziz Soliman*, Professor of Pediatrics, Ain Shams University, who endeavoured to provide incalculable assistance guiding every step of this work. Her patience, generous support and indispensable encouragement, enlightened the way throughout this thesis. It is an honor working under her kind supervision.

Grateful acknowledgment and deep appreciation are conveyed to *Dr. Nehal Mohamed EL-Raggal*, Assistant professor of Pediatrics, Ain Shams University, for her great support careful supervision, and continuous advice which helped me to overcome many difficulties.

No words of gratitude would be enough to express what I owe my family and my husband. They have been there every step of the way and to them I dedicate every achievement.

Hala Fouad Shama
