ACKNOWLEDGEMENT

I would like to express my deepest gratitude to PROF. DR. RAAFAT ABD EL-AZEEM HAMMAD for his wise guidance throughout this work.

I am also greatly indebt to ASS. PROF. DR. FOUAD ABD EL-MOHSEN ZAHRA for his continuous help and advice and his kind support.

I would like also to express my deepest thanks to DR. SHERIEN KAMAL KODAIRA for her kind care and fruitful ideas.

Last I wish to thank all my family for their support.

Mohamed Husny

Cairo, 2002

CONTENTS

▪ Introduction	I
▪ Biochemical and physiological aspects of human albumin	7
▪ Clinical considerations and uses of human albumin	31
▪ Summary	89
▪ References	93
▪ Arabic summary	

TABLES

Table 1: Distribution of extravascular albumin in the body.	12
Table 2: Volume of venous solutions that is necessary to expand plasma volume by 1000 ml.	61
Table 3: Use of the albumin in the intensive care patients.	64
Table 4: Volume replacement in adult surgical patients.	67
Table 5: Volume replacement in pediatric surgical patients.	69
Table 6: Studies demonstrating low serum albumin associated with poor outcome in specific diseases and conditions.	82
