DEDICATION

*To soul of my grandfather
to my father, mother, sisters, brothers
Especially youngest brother Eslam.*

Acknowledgment

First and foremost I would like to express my deepest gratitude and thanks to Allah, whose magnificent help was the main factor in accomplishing this work.

Although, it is usually easy to write down words to thank others for their help, my words do fail me to express my sincerest appreciation to my highly distinguished professors who helped me a lot to complete my study.

I wish to offer my whole - hearted thanks, deepest gratitude and indebtedness to prof.- Dr. Sohier Jbrahim Sobhy , Assist. professor of Maternity and Gynecologic Nursing, faculty of Nursing, University of Alexandria, for her valuable guidance, endless help, constant encouragement, creative suggestion, grateful criticism and the great effort she have devoted in the supervision of this work. Her help is beyond praise.

My profound thanks gratefulness and appreciation to Prof.-Dr. El-Sayed Fetouh Rakha , Professor of Obstetrics and Gynecology, faculty of Medicine, University of Tanta, for his kind supervision, unlimited support, continuous guidance and assistance.

Words can not express my deepest gratitude and appreciation to Dr. Jman Abd-El-Aziz El-Khayat, lecturer of Maternity and Gynecologic Nursing, faculty of Nursing, University of Tanta, for her sincere advice, prompt assistance and over lasting helpful support.

I would like to express my deepest warm feeling, endless thanks and appreciation to Prof.-Dr. Amany Gamal Eldeen, Dr. Magda Mourad professor of Maternity and Gynecologic Nursing, faculty of Nursing, University of Alexandria and Dr. Kamilia Abo-Shabana professor of Maternity and Gynecologic Nursing, faculty of Nursing, University of Ain Shams, for their endless patience, guidance, assurance in adding their expertise and wisdom that affected me personally and professionally.

My sincere, thanks and gratitude to staff members of Obstetrics & Gynecologic department in El-Mahala El-Kobra general hospital especially Dr. Atef Azam , Dr. Jbrahim Mashaal and Dr. Maher El-Ghanam, Consultants of Obstetric & Gynecologic medicine, for their endless guidance in clinical practices of obstetrical gynecological field.

Last but not least, my deepest gratitude and thanks to all my family members, all of them helped and supported me during the completion of this work. Their patience assistance and love indeed supported me and created the best environment that made this work possible.

Again, to all my deepest love and gratitude.
