Acknowledgement

First of all and foremost, all my deepest thanks to God, the most merciful and who is always and forever behind all success

My deepest and warmest gratitude to my great supervisor Prof. Dr. Nagwa Elmahalawy, Professor of Cardiology, Faculty of medicine, Ain Shams University, for her sincere encouragement, for her continuous and expert guidance and also her precious advises.

I also feel deeply thankful to Prof. Dr. Thab Attia, Professor of Cardiology, Faculty of Medicine, Ain Shams University, for his illuminating remarks and tremendous assistance.

I am deeply obliged to Dr. Hany Fouad, Assistant Professor of Cardiology, Faculty of Medicine, Ain Shams University, for his encouragement, excellent guidance and unlimited patience.

I would like to thank Dr. Adel Imam, Consultant of Cardiology, National Heart Institute for his enthusiastic help.
