RESISTANCE TO ACTIVATED PROTEIN "C" AMONG EGYPTIAN PATIENTS WITH THROMBOEMBOLIC DISEASES

Thesis

Submitted For Partial Fulfillment of MD Degree in INTERNAL
MEDICINE

By

HOSSAM EL DESSOKEY NASR

M.B., B.Ch & M.Sc. (Internal medicine)

Assistant Lecturer of Internal Medicine

Faculty of Medicine-Ain Shams university

6/6.15

H. E.

Under supervision of

67059

PROF. DR. OMAR FATHY MOHAMED

Professor Of Internal medicine and Head Of Clinical Haematology
and Oncology Department

Faculty Of Medicine-Ain Shams University

Omar Fathy

DR. HODA AHMED GADALLA

Assistant Professor Of Internal Medicine and Haematology

Faculty Of Medicine-Ain Shams University

DR. MOHAMED OSMAN AZZAZI

Assistant Professor Of Internal Medicine and Haematology

Faculty Of Medicine-Ain Shams University

DR. IBRAHIM YOUSSEF ABDEL MESEH

Assistant Professor Of Clinical Pathology

Faculty Of Medicine-Ain Shams University

Faculty of Medicine
Ain Shams University

2000

Acknowledgement

First and foremost, I thank ALLAH who gave me the strength to fulfill this work.

I would like to thank Professor Dr. OMAR FATHY MOHAMED, Professor of Internal Medicine and Head of Clinical Haematology and Oncology Department, Ain Shams University, for his guidance and continuous encouragement. I consider my self very fortunate to be worked under his supervision.

I wish to thank Dr. HODA AHMED GADALLA, Assistant Professor of Internal Medicine and Haematology, Ain Shams University for her utmost support and help during this work.

Also, I would like to thank Dr. MOHAMED OSMAN AZZAZI, Assistant Professor of Internal Medicine and Haematology, Ain Shams University and Dr. IBRAHIM YOUSSEF ABDEL MESEH Assistant Professor of Clinical Pathology for their kind help during this work.

Also I would like to thank Dr. HALA ABDEL KHALIK HUSSEIN, Fellow of Clinical Pathology, Ain Shams University for

her kind support and encouragement during the practical work of this study.

Also, I would like to thank Dr. SHERIF MOHAMED SHOULKAMY, Lecturer of Vascular Surgery, Ain Shams University for his great cooperation during this work

Many thanks go to Dr. ESSAM ABDEL WAHID, Lecturer of Internal Medicine, Ain Shams University for his experienced support during the practical part of this study.

Finally I would like to extend my thanks to my family and all my colleagues in the Internal Medicine Department, Ain Shams University Hospitals, for their patience, encouragement, and continuous support.

List of Contents

LIST OF ABBREVIATIONS	<i>i</i>
LIST OF TABLES	<i>iii</i>
LIST OF FIGURES	<i>viii</i>
INTRODUCTION AND AIM OF THE WORK	1
REVIEW OF LITERATURE	3
Overview of Haemostasis	3
Haemostatic Control Mechanisms of Blood Coagulation	16
Thrombophilia	41
Inherited thrombophilia	44
<i>Resistance to activated protein C</i>	45
<i>ATIII deficient states</i>	61
<i>Protein C deficiency</i>	65
<i>Protein S deficiency</i>	74
<i>Dysfibrinogenemia</i>	78
Acquired thrombophilia	80
<i>Antiphospholipid syndrome</i>	80
<i>Paroxysmal nocturnal hemoglobinuria</i>	83
<i>Myeloproliferative disorders</i>	84
<i>Trousseau's syndrome</i>	85
Management of Thrombophilic Patients	87
SUBJECTS AND METHODS	96
RESULTS	126
DISCUSSION	196
SUMMARY	218
CONCLUSION AND RECOMMENDATIONS	221
REFERENCES	225
APPENDIX	
ARABIC SUMMARY	v

List of Abbreviations

PAI-1	Plasminogen activator inhibitor-1
DDVAP	Desamino dearginin vasopressin
vWF	vonWillebrand factor
GP1a-IX	Glycoprotein Ib-IX
GP1a-IIb	Glycoprotein Ia-IIb
ADP	Adenosine diphosphate
PAF	Platelet activating factor
TXA ₂	Thromboxane A ₂
PF ₄	Platelet factor 4
β-TG	beta-Thromboglobulin
PDGF	Platelet derived growth factor
HMWK	High molecular weight kininogen
α ₁ -AT	α1-antitrypsin
α ₂ -MG	α2-macroglobulin
Ca ⁺⁺	Calcium ion
GP1Ia-IIIb	Glycoprotein IIa-IIIb
c-AMP	cyclic-Adenosine monophosphate
PGI ₂	Prostaglandin I ₂ (prostacyclin)
c-GMP	cyclic-Guanosine monophosphate
IL-1	Interleukin-1
TNF	Tumor necrosis factor
μM	microMole
PC	Protein C
PS	Protein S
ATIII	Antithrombin III
APC	Activated protein C
APCR	Activated protein C resistance
APTT	Activated partial thromboplastin time
PT	Prothrombin time
ATP	Adenosine triphosphate
NO	Nitrous oxide

t-PA	Tissue plasminogen activator
DIC	Dissiminated intravascular coagulopathy
n°	Nanometer
MRI	Magnetic resonance imaging
MRA	Magnetic resonance angiography
TEC	Transesophageal echocardiography
PCR	Polymerase chain reaction
LA	Lupus anticoagulant
ACLA	Anticardiolipin antibodies

List of Tables

Table 1	The clinical manifestations of thrombophilia	43
Table 2	Prevalence of ATIII, PC and PS deficiencies in patients with a history of thrombosis	44
Table 3	Acquired ATIII deficiency	64
Table 4	Features of Trousseau's syndrome	86
Table 5	Mean, SD, range and comparative study of all studied groups as regards age	127
Table 6	Mean, SD, range and comparative study of all studied groups as regards sex	128
Table 7	Comparison between group Ia and group Ib as regards sex	128
Table 8	Comparison between control group and other studied groups as regards smoking	129
Table 9	Comparison between control group and other studied groups as regards hypertension	129
Table 10	Comparison between group Ia and group Ib as regards smoking	130
Table 11	Comparison between group Ia and group Ib as regards hypertension	130
Table 12	Prevalence of positive family history in various studied groups	130
Table 13	Comparison between group Ia and group Ib as regards family history	131
Table 14	Precipitating factors for DVT in group Ia and Ib	132

Table 15	Comparison between group Ia and group Ib as regards precipitating factors	132
Table 16	Comparison between group Ia and group Ib as regards pulmonary embolism	133
Table 17	Mean, SD, range and comparative study of all studied groups as regards haemoglobin concentration	135
Table 18	Mean, SD, range and comparative study of all studied groups as regards total leukocytic count	136
Table 19	Mean, SD, range and comparative study of all studied groups as regards platelet count	137
Table 20	Mean, SD, range and comparative study of all studied groups as regards ESR	138
Table 21	Mean, SD, range and comparative study of all studied groups as regards post prandial glucose	139
Table 22	Mean, SD, range and comparative study of all studied groups as regards cholesterol	140
Table 23	Mean, SD, range and comparative study of all studied groups as regards TG	141
Table 24	Prevalence of risk factors for arterial thrombosis in all studied groups	142
Table 25	Immunological profile	143
Table 26	Comparison between control group and other studied groups as regards ANA	144
