ACKNOWLEDGMENT

The present investigation was carried out under the supervision of Dr. S.M. Abo-Korah, Professor of Agricultural Zoology (Acarology) and Head of Economic Entomology and Agricultural Zoology Department, Faculty of Agriculture , Minufiya University and Dr. A.A. Eisa , Professor of Pesticides, Pesticides Dept. at the same Faculty & University .

The authoress is very grateful to Prof Dr. S.M. Abo-Korah, for his keen interest, advice, suggesting the problem , indispensable efforts for planning and directing Taxonomical ; Systematical and Ecological studies , the confirmation of the collected species , preparing these two experimental parts and reviewing the manuscript .

Deep gratitude and appreciation to Prof. Dr. A.A. Eisa , for her valuable advice, suggestions the experiment of pesticides and reviewing it.

CONTENTS

	Page
INTRODUCTION	1
REVIEW OF LITERATURE	
I. Taxonomical and Systematical studies on Tarsonemina	
II. (Acari : Heterostigmata).	3
III. Ecological studies on Tarsonemina species .	31
IV. Pesticidal studies	42
MATERIALS AND METHODS.....	
A. Sampling, extraction and enumeration of soil mites....	47
B. Pesticides used	48
RESULTS AND DISCUSSION.....	
I. Taxonomical and systematical studies on Tarsonemina	
Description of new taxa	55
II. Ecological studies on Tarsonemina	77
1. Qualitative and quantitative composition of soil Tarsonemina species associated with five host plants (1998 & 99).....	77
2. Distribution patterns of soil Tarsonemina species associated with potatoes (1998 & 99).....	83
