Surface Marker CD58 Adhesion Molecule in Acute Leukemia

Thesis

Submitted For Partial Fulfillment of
Master Degree in
Clinical and Chemical Pathology

By

HebatAllah Ashraf Mahmoud Assim
M.B., B.Ch.,

Under the Supervision of

Prof. Zeinab Mohamed Tawfek

Professor of Clinical and Chemical Pathology
Faculty of Medicine
Ain Shams University

Dr. Mohamed Amin Mekawy

Assist Prof. Of Clinical and Chemical Pathology
Faculty of Medicine
Ain Shams University

Dr. Dahlia Ahmed El-Sewefy

Lecturer of Clinical and Chemical Pathology
Faculty of Medicine
Ain Shams University

my beloved family

my professors

Acknowledgement

First of all, thanks to God for giving me the strength and power to carry out this work.

I am greatly indebted to Prof. Dr. Zeinab Mohamed Jawfek, Professor of Clinical Pathology, Faculty of Medicine, Ain Shams University, for giving me the honor to work under her supervision. I would like to thank her for her valuable support, kind encouragement and sincere guidance she offered me throughout this study.

I wish also to express my deep appreciation to Dr. Mohammed Amin Mehawey, Assist. Prof. Of Clinical Pathology Faculty of Medicine, Ain Shams University for his generous help, valuable efforts, great concern throughout the course of this work.

I am deeply grateful to Dr. Dahlia Ahmed El-Sewefy, Lecturer of Clinical Pathology, Faculty of Medicine, Ain Shams University, for her constant support, kind care and continuous encouragement.

My sincere gratitude and deepest thanks to my family, for providing me help and spiritual support that was of utmost importance in carrying out this work.

Hebat Allah Ashraf

Contents

Introduction and Aim of the work	1
Review of literature	
Chapter I: Acute leukemia	3
- Acute lymphoblastic Leukemia -----	3
* Classification -----	3
* Morphologic classification -----	3
* Cytochemical stains -----	5
* Immunophenotyping -----	6
* Cytogenetic analysis -----	8
* WHO classification -----	10
- Acute Myeloid leukemia -----	12
* Classification -----	12
* Morphology -----	12
* Cytochemical -----	14
* Immunophenotyping -----	16
* Cytogenetic -----	17
* WHO classification of AML -----	19
Treatment of Acute Leukemia	
* General supportive therapy -----	23
* Specific therapy of ALL patients -----	24
* Specific therapy of AML patients -----	27
Chapter II. Adhesion molecules -----	
* Integrin family -----	30
* Selectins family -----	34
* Immunoglobulin superfamily -----	38
* Other Adhesion receptors -----	43
* Expression of Co-stimulatory Molecules on Malignant cells -----	44
* Co-stimulatory molecules in cancer therapy -----	45
Chapter III Minimal Residual Disease -----	
* What is MRD? -----	48
* Applications of MRD studies -----	48
* Methods to detect MRD -----	50

* Morphology -----	50
* Immunophenotypic analysis -----	50
* Molecular techniques -----	55
* PCR -----	55
* Southern blot hybridization -----	66
* Cell culture assays -----	56
* Karyotypic analysis -----	56
* Fluorescence in situ hybridization (FISH)-----	57
Patients and Methods -----	58
Results -----	80
Discussion -----	90
Summary and conclusion -----	97
References -----	99
Arabic Summary -----
