Acknowledgment

First of all thanks **God** for blessing this work until it reached this end.

I'd like to present my sincere gratitude to my honorable and respectful Professors who helped me to finish this work; with mere and special thanks to **Prof. Dr. Abd El-Salam Morad Kasem**, Prof. of Anaesthesia and Intensive Care, Faculty of Medicine, Ain Shams University, for his moral and concrete support, it is really a great honor to work under his guidance and supervision.

Special thanks to **Prof. Dr. Samia Ibrahim Sharaf**, Prof. of Anaesthesia and Intensive Care, Faculty of Medicine, Ain Shams University, for her kind supervision, encouragement, and great effort in supplying me with information and knowledge in the practical aspect of this work and offered all physical and mental support in order to deliver it in a presentable form.

I'm very thankful and appreciable to **Dr. Fouad Abd El-Mohsen Zahra**, Assist. Prof. of Anaesthesia and Intensive Care, Faculty of Medicine, Ain Shams University, for his kind advice, valuable instructions, and moral support throughout this work.

Many thanks to my colleagues and residents who reinforced me.
