BIOGRAPHY

Date of graduation: May ,1985

Degree awarded: M.Sc. (Entomology), Benha, Zagazig University.

Occupation: Assist ant Lecturer, Department of Entomology
Faculty of science, Benha University, Egypt.

Date of appointment: February, 1996.

Date of registration: June,1996.

Acknowledgement

Words may not express my sincere thanks and deep gratitude to ***Prof. Dr. Refaat. G. Abou El-Ela*** Professor of Entomology, Faculty of Science, Cairo University, for his continuous assistance, encouragement and for reading and correcting the manuscript.

High appreciation and deep thanks are due to ***Prof. Dr. Nahed M. Hilmy*** Professor of Entomology and head of Entomology Department, Faculty of Science, Benha, Zagazig University for her guidance and supervision of this work.

I would like to express my deep appreciation to ***Dr. Rawhaia H. Ramadan*** Lecturer of Entomology, Faculty of Science, Benha, Zagazig University for her continuous help, valuable advises and for reading and correcting the manuscript.

Finally, this work is indebted to these whom I previously mentioned, and to a wide range of colleagues in the faculty of Science Benha Branch, Zagazig University.

CONTENTS

1.INTRODUCTION.....	1
Aim of the present work.....	4
II-LITERATURE REVIEW	
1.Biology of the water bugs (Hemiptera-Belostomatidae).....	5
1.1 <u>S. urinator</u> Dufor.....	5
1.2.Other <u>Sphaerodema</u> species.....	9
1.2.1. <u>S. rustica fabricus</u>	9
1.2.2. <u>S. annulatum fabricus</u>	10
1.3.Other water bugs.....	11
2.Importance of giant water bugs (Belostomatidae) as mosquito predator.....	16
3. Effect of insecticides and insect growth regulators on nontarget aquatic insects.....	21
III-MATERIALS AND METHODS	
1.Insect collection.....	31
1.1. <u>S. urinator</u>	31
1.2.Other insects.....	32
1.2.1. Larvae and pupae of mosquito.....	32
1.2.2. Dragonfly nymphs.....	33
1.2.3.Backswimmer and diving beetle adults.....	33
2.Samples transportation.....	34
3. Insect maintenance.....	34
3.1.The water bug (<u>S. urinator</u>).....	34
3.2. Mosquito larvae and pupae.....	35

3.3. Dragonfly nymphs, backswimmers and diving beetles.....	35
4. Factors that may affect the role of <u>S. urinator</u> as mosquito predator...	36
4.1. Water depth.....	36
4.1.1. Effect of water depth on the development of the immature stage.....	36
4.1.2. Effect of water depth on some biological aspects of the adult stage	37
4.1.3. Effect of water depth on the daily consumption of mosquito larvae by different stages of <u>S. urinator</u>	38
4.2. water surface area	38
4.2.1. Effect of water surface area on th development of the immature stage.....	38
4.2.2. Effect of water surface area on some biological aspects of the adult stage	39
4.2.3. Effect of water surface area on the daily consumption of mosquito larvae by different stages of <u>S. urinator</u>	40
4.3. water flora.....	40
4.3.1. Effect of water flora on the development of the immature stage.....	40
4.3.2. Effect of water flora on some biological aspects of the adult stage.....	41
4.3.3. Effect of water flora on the daily consumption of mosquito larvae by different stages of <u>S. urinator</u>	42
4.4. Water quality.....	42
4.4.1. Effect of water quality on the development of the immature stage.....	42

4.4.2.Effect of water quality on some biological aspects of the adult stage.....	43
4.4.3.Effect of water quality on the daily consumption of mosquito larvae by different stages of <u>S. urinator</u>	44
4.5. Water temperature.....	45
4.5.1.Effect of water temperature on the development of the immature stage.....	45
4.5.2.Effect of water temperature on some biological aspects of the adult stage.....	45
4.5.3.Effect of water temperature on the daily consumption of mosquito larvae by different stages of <u>S. urinator</u>	46
4.6.Photoperiod.....	47
4.6.1. Effect of photoperiod on the development of the immature stage.....	47
4.6.2. Effect of Photoperiod on some biological aspects of the adult stage.....	48
4.6.3. Effect of photoperiod on the daily consumption of mosquito larvae by different stages of <u>S. urinator</u>	48
4.7 .Light intensity.....	49
4.7.1.Effect of light intensity on the development of the immature stage.....	49
4.7.2. Effect of light intensity on some biological aspects of the adult stage	50
4.8.Insecticides used as mosquito larvicides.....	51
4.8.1.Toxicity of insecticides used as mosquito larvicides to different stages of <u>S. urinator</u>	53

4.8.2.Effect of insect growth regulators on the development of the immature stage.....	56
4.8. 3.Effect of insect growth regulators on some biological aspects of the adult stage.....	56
4.9.Relative efficacy of <u>S. urinator</u> as mosquito predator as compared to other predators.....	57

IV-RESULTS

1.Factors that may affect the role of <u>S. urinator</u> as mosquito predator.....	59
1. Water depth.....	59
1.1. Effect of water depth on the development of the immature stage.....	59
1.2. Effect of water depth on some biological aspects of the adult stage	64
1.3. Effect of water depth on the daily consumption of mosquito larvae by different stages of <u>S. urinator</u>	71
2. water surface area	74
2.1.Effect of water surface area on th development of the immature stage.....	74
2.2. Effect of water surface area on some biological aspects of the adult stage	80
2.3.Effect of water surface area on the daily consumption of mosquito larvae by different stages of <u>S. urinator</u>	87
3. water flora.....	90
3.1. Effect of water flora on the development of the immature stage.....	90

3.2.Effect of water flora on some biological aspects of the adult stage.....	95
3.3.Effect of water flora on the daily consumption of mosquito larvae by different stages of <u>S. urinator</u>	102
4. Water quality.....	105
4.1. Effect of water quality on the development of the immature stage.....	105
4.2.Effect of water quality on some biological aspects of the adult stage.....	113
4.3.Effect of water quality on the daily consumption of mosquito larvae by different stages of <u>S. urinator</u>	122
5. Water temperature.....	125
5.1.Effect of water temperature on the development of the immature stage.....	125
5.2.Effect of water temperature on some biological aspects of the adult stage.....	132
5.3.Effect of water temperature on the daily consumption of mosquito larvae by different stages of <u>S. urinator</u>	140
6.Photoperiod.....	144
6.1. Effect of photoperiod on the development of the immature stage.....	144
6.2. Effect of Photoperiod on some biological aspects of the adult stage.....	149
