والآله الطيبين الطاهرين

ACKNOWLEDGMENT

I would like to express my deepest thanks, gratitude and respectful appreciation to Prof. Dr. Omar Rashed, Prof. of Ophthalmology, Faculty of Medicine, Ain Shams University, to whom I'm deeply grateful for his constant supervision and Encouragement without which I would not have been able to complete this work,

I would like to express my sincere thanks to Dr. George Williams, of the Associated Retinal Consultants Michigan USA, for his warm hospitality and true friendliness during my stay in the U.S.A. and for his precious time and effort he dedicated to the preparation of this work,

I would like to express my sincere gratitude and overlasting thanks to Prof. Dr. Magdy El-Barbary, professor of Ophthalmology, Ain Shams University, to whom I am greatly indebted for his continuous interest and honest advices during the preparation and finalization of this work,

I would like to express my true appreciation to Dr. Michael Hartzler, head of William Beaumont eye institute Ophthalmology research for his step by step guidance and valuable instructions during our animal study, spending long hours in his lab to prepare the different plasmin enzyme we needed, and also for his gracious personal care of me during my stay in the U.S.A.

I would like also to express my deepest thanks to Dr. Alaa Fathy. Assistant Prof. of Ophthalmology, Ain Shams University, who did a great effort in revising this work.

Dedication

*To my lovely parents to whom I owe, my
soul my self and my life*

*And to my (Wife to be) Yasmeen for her
kind understanding, valuable support and
tender patience during the preparation of
this work both in the U.S.A. and Egypt*
