بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

الْحَمْدُ لِلَّهِ الَّذِي هَدَانَا لِهَذَا، وَ

مَا كُنَّا لَنَهْتَدِيَ لَوْلَا أَنْ هَدَانَا اللَّهُ

صَلَّى اللَّهُ عَلَى النَّبِيِّ

(الْبَقَرَةُ، آيَةُ ٢٨٥)

Acknowledgement

First and foremost thanks to ALLAH, the most merciful, who gave me every thing including the ability to fulfill this work.

I wish to express my deep appreciation and sincere gratitude to Prof. DR. Mohammed A. El-Bokl Prof. Of Internal Medicine, Ain Shams University, for his close supervision, valuable instructions, continuous help, patience and guidance. He has generously devoted much of his time and effort for planning and supervision of this study. It was great honor to me to work under his supervision.

My deepest gratitude to Ass. Prof. DR. Mohammed A. El-Maltawy Ass. Prof. Of Internal Medicine, Ain Shams University. He really helped me by his precious opinions and contributive comments that served much in the construction of this work.

My sincere thanks for DR. Hannan Badawy, Lecturer of Internal Medicine, Ain Shams University, who always supports me and reads every word written in this thesis, and for her continuous encouragement which obliged me to bear the responsibility towards this study.

I wish to express my supreme gratitude to Prof. DR. Yehia M. EL-Shazly prof. of Internal Medicine, Head of Motility Unit, Ain Shams University, for his great help in the practical part of work.

Also, I want to thank DR. Nanees Adel and DR. Hisham El-Masry, for their great help in my work by their experts in doing Electrogastrography and Ultrasonography for the patients.

Last, I want to thank all my colleagues, friends and my patients without their help, this work could not have been completed

LIST OF TABLES

No.	Title	Page
1	Definition in the analysis of frequency spectra of cutaneous 4-channel recordings of gastric myoelectrical activity.	52
2	Age distribution among the study groups.	132
3	Gender distribution among the study groups.	132
4	Comparison of the three groups as regards the mean of results of EGG.	133
5	Difference between grades of Child Pugh classification as regards EGG parameters.	134
6	Effect of gender among cases on EGG parameters.	135
7	Effect of gender among controls on EGG parameters.	136
8	Relation between dyspeptic symptoms and EGG parameters.	136
9	Distribution of postprandial dip among different groups.	137
10	Comparison between the three groups regarding gastric dysrhythmia.	137
11	Comparison between the different groups as regards gastric emptying.	138
12	Comparison between grades of Child Pugh classification regarding gastric emptying.	139
13	Effect of gender among cases on gastric emptying.	140
14	Effect of gender among controls on gastric emptying.	140
15	Correlation between EGG parameters and gastric emptying values among group I.	141
16	Correlation between EGG parameters and gastric emptying values among group II.	142
17	Correlation between EGG parameters and gastric emptying values among group III.	143
