**A COMPARATIVE STUDY BETWEEN
HYSTEROSALPINGOGRAPHY AND LAPAROSCOPY IN
EVALUATING TUBAL FACTOR
IN FEMALE INFERTILITY**

A Thesis

Submitted for partial fulfillment of Master Degree in Obstetrics &
Gynecology

By

68901

Ali Maher Mohamad

MB B. Ch, Ain Shams University, 1996

Under Supervision of

Prof. Dr. Maged Ramadan Abou Seeda

Prof. Of Obstetrics & Gynecology

Ain Shams University

Prof. Dr. Khaled Kamal Ali

Prof. Of Obstetrics & Gynecology

Ain Shams University

Dr. Hossam Ahmad Kamel

Lecturer in Obstetrics & Gynecology

Ain Shams University

Faculty of Medicine
Ain Shams University

2002

6/8.12

A. M

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

{لله ملك السموات والأرض يخلق ما يشاء
يهب لمن يشاء إناثاً ويهب لمن يشاء الذكور
(49) أو يزوجهم ذكراً وإناثاً ويجعل من يشاء
عقياً إنه عليم قدير (50)}

{سورة الشورى}

ACKNOWLEDGMENT

First and foremost Thanks To ALLAH the most Beneficial and Merciful.

I would like to express my great gratitude to **Prof. Dr. Mohamad Awad Tag El-Deen**, for his great help.

I would like to express my profound gratitude and deep appreciation to my professors:

Prof. Dr. Maged Ramadan Abou Seeda for his great support and help.

Prof. Dr. Khaled Kamal Ali for his helpful and constructive criticism

Dr. Hossam Ahmad Kamel for his invaluable and meticulous revision and help

Without their help, invaluable guidance, interest, this work wouldn't have come to light.

I'd like to express my deep gratitude to **Prof. Dr. Alaa Fayez** for his continuous support and help and invaluable advices.

I am also very grateful to my consultants, specialists and my colleagues at **Al-Galaa Maternity Hospital** for their kind care and help.

I am also grateful to **Dr. Sherif Abdallahi** for his great help.

TABLE OF CONTENTS

Introduction and Aim of work

Introduction.....	1
Aim of Work.....	5

Review of literature

Chapter I: Anatomical and physiologic consideration.....	7
Chapter II: Hysterosalpingography.....	33
Chapter III: Laparoscopy.....	85

Materials and Methods.....	117
Results.....	127
Discussion.....	137
Summary.....	147
References.....	151
Arabic Summary.....	175

List of Tables:

Table (1): Female causes of infertility

Table (2): Timing of infertility evaluation

Table (3): Measures of Validity for a Screening Procedure

Table (4): Classification of cases according to age of patients and duration of infertility

Table (5): Classification of cases according to tubal patency by laparoscopy

Table (6): Classification of cases according to tubal patency by HSG

Table (7): Classification of cases according to tubal patency by HSG in cases of primary infertility

Table (8): Classification of cases according to tubal patency by HSG in cases of secondary infertility

Table (9): Classification of cases according to tubal patency by laparoscopy in cases of primary infertility

Table (10): Classification of cases according to tubal patency by laparoscopy in cases of secondary infertility

Table (11): Classification of cases according to site of single sided tubal block by laparoscopy

Table (12): Classification of cases according to site of single sided tubal block by HSG

Table (13): Classification of cases according to site of double sided tubal block by laparoscopy

Table (14): Classification of cases according to site of double sided tubal block by HSG

Table (15): Classification of cases according to detection of pelvic adhesions by laparoscopy

Table (16): Classification of cases according to detection of pelvic adhesions by HSG

Table (17): Comparison between laparoscopy and HSG regarding tubal patency

Table (18): Comparison between laparoscopy and HSG regarding dection of site of block at single sided tubal block

Table (19): Comparison between laparoscopy and HSG regarding detection of site of block at double sided tubal block

Table (20): Comparison between laparoscopy and HSG regarding detection of pelvic adhesions
