B/191.9

IMMUNOLOGICAL STATUS OF EGYPTIAN INFANTS, CHILDREN AND ADOLESCENTS AGAINST MUMPS

Thesis
Submitted for Partial Fulfilment
of the M.D.
Degree in Pediatrics

By Nabih Mohamed Niazi Hatata
M.B., B.Ch., M.Sc. Pediatrics.

Supervisors

Prof. Dr. KHALIL ABD EL-HADY MOURAD
Professor of Pediatrics
Ain Shams University.

Prof. Dr. RASHA KHALIL
Professor of Microbiology & Immunology
Ain Shams University.

Dr. MOUCHIRA FAYEK HELMY
Assistant Professor of Microbiology & Immunology
Ain Shams University.

Dr. NANCY ABD EL-AZIZ SOLIMAN
Assistant Professor of Pediatrics
Ain Shams Univeristy.

Faculty of Medicine
Ain Shams University.

1992

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قالوا سبحانك لا علم لنا إلا ما علمتنا
إنك أنت العليم الحكيم .

صدق الله العظيم

Acknowledgement

I would like to express my sincere thanks and gratitude to my **Prof. Dr. Khalil Abd El-Hady**, Professor of Pediatrics, Ain Shams University, for choosing the topic of this thesis and for his faithful encouragement and guidance.

I feel deeply indebted to **Prof. Dr. Rasha Khalil**, Professor of Microbiology, Ain Shams University, for her valuable remarks.

I wish also to express my thanks to **Dr. Nancy Soliman**, Assistant Professor of Pediatrics, Ain Shams University, for her enthusiastic cooperation, unfailing help and cordial support throughout this work, and I appreciate the valuable advice and support of **Dr. Mouchira Helmy**, Assistant Professor of Microbiology, Ain Shams University.

To all my professors and colleagues, I owe my utmost gratitude, and I specially thank my friends and colleagues **Dr. Ismail Sadek** and **Dr. Alyaa Kotby** for their continuous aid and moral support.

Last but by no means least, I would like to thank the children and their parents for their cooperation and patience, and to whom I dedicate this piece of work.

CONTENTS

	Page
* List of Abbreviations.	
* List of Figures	
* List of Plates	
* List of Tables	
1- Introduction	1
2- Aim of The Work	3
3- Review of Literature	4
Historical View	4
Etiology of Mumps.....	6
Epidemiology	11
Pathology and Pathogenesis.....	15
Clinical Manifestations	18
Complications	23
Immunology	35
Immunization Against Mumps	50
Enzyme Linked Immunosorbent Assay	61
4- Subjects and Methods	65
5- Results	78
6- Discussion	98
7- Conclusion and Recommendations	110
8- Summary	113
9- References	117
10- Arabic Summary.	

LIST OF ABBREVIATIONS

BC	: Before Christ.
CF	: Complement fixation.
CSF	: Cerebrospinal fluid.
DTP	: Diphtheria, Tetanus and Pertussis vaccine.
EIA	: Enzyme immunoassay.
ELISA	: Enzyme linked immunosorbent assay.
F	: Fusion protein.
HI	: Hemagglutination inhibition.
HIG	: Hemolysis in gel.
HN	: Hemagglutinin neuraminidase protein.
IgA	: Immunoglobulin A
IgG	: Immunoglobulin G
IgM	: Immunoglobulin M
LBT	: Lymphocyte blast transformation.
MMR	: Measles, Mumps and Rubella vaccine.
nm	: nanometer
OPV	: Oral poliovirus vaccine.
RF	: Rheumatoid factor.
RIA	: Radioimmunoassay.
RNA	: Ribonucleic acid.
rpm	: Round per minute.
S	: Soluble antigen.
SRH	: Single radial hemolysis.
TCID	: Tissue culture infectious dose.
UK	: United Kingdom
USA	: United States of America.
V	: Viral antigen.

LIST OF FIGURES

No.	Title	References	Page
Review of Literature			
1.	Schematic diagram of the arrangement of structural proteins in a paramyxovirus virion	Richman, 1986	7
2.	Correlation of mumps IgG ELISA with HIG	Ukkonen et al., 1981 ^a	46
3.	Correlation of mumps IgG ELISA with CF	Ukkonen et al., 1981 ^a	46
4.	Correlation of mumps IgG ELISA with HI	Ukkonen et al., 1981 ^a	47
5.	Development of mumps antibodies in natural mumps infection as measured by IgG ELISA	Ukkonen et al., 1981 ^a	47
6.	Development of mumps antibodies in natural mumps infection as measured by CF	Ukkonen et al., 1981 ^a	48
7.	Development of mumps antibodies in natural mumps infection as measured by HIG	Ukkonen et al., 1981 ^a	48
8.	Development of mumps antibodies in natural mumps infection as measured by HI	Ukkonen et al., 1981 ^a	49
9.	Development of mumps antibodies in natural mumps infection as measured by IgM ELISA	Ukkonen et al., 1981 ^a	49
10.	ELISA	Roitt et al., 1985	63
11.	Dilution schemata for control serum, positive		72
12.	Predilution and pipetting of the samples to be tested into the reaction wells of the strip.		

No.	Title	References	Page
Results			
13.	The percentage of anti-mumps seriomunity in the studied sample		78
14.	The percentage of anti-mumps seriomunity in the male subjects		80
15.	The percentage of anti-mumps seriomunity in the female subjects		81
16.	Anti-mumps immune status at different age groups in a bar chart demonstration		83
17.	Linear relation between age and anti- mumps seroimmunity		84
18.	A scatterplot of the anti-mumps seroimmunity in subjects under 1 year of age.		87
19.	A scatterplot of the anti-mumps seroimmunity in subjects above 1 year of age.		88
20.	A scatterplot showing the relation between the anti-mumps		89
21.	Comparison between both sexes at different age groups and anti-mumps seroimmunity in a bar chart demonstration.		92
22.	The relationship between the age and the mean IgG absorbance values.		94
23.	The age related changes in the force of infection.		97

LIST OF PLATES

No.	Title	References	Page
1.	Unilateral mumps parotitis	Stehr, 1983	20
2.	Bilateral mumps parotitis	Zatouroff, 1986	21
3.	Stensen's duct orifice in mumps	Zatouroff, 1986	21
4.	Enzygnost test plate		69

LIST OF TABLES

No.	Title	References	Page
Review of Literature			
1.	Parotid swelling - Differential diagnosis	Marks, 1986	22
Results			
2.	Distribution of the studies sample according to sex and seriomunity against mumps.		79
3.	Distribution of the studied sample according to age and seriomunity against mumps.		82
4.	Anti mumps seriomunity among the sub-divisions of the age group 4 weeks - 2 years.		85
5.	Anti mumps seriomunity before and after 1 year		86
6.	Anti-mumps seriomunity at different age groups in male subjects.		90
7.	Anti-mumps seroimmunity at different age groups in female subjects.		91
8.	The mean IgG absorbance values in immune subjects at different age groups.		93
9.	The relation between past history of mumps and anti-mumps seroimmunity.		95
10.	Changes in the force of infection in respect to age.		96
