Approval sheet

Title of thesis:

Therapeutic impact of Grape (*Vitis vinifera*) leaves Polyphenols on neurological biomarkers of Alzheimer's dementia in aged rats

Degree: Ph.D. of Science in Biochemistry

Name: Ghadha Ibrahim Fouad Abd El Aziz

This thesis for Ph.D. of Science Degree has been approved by:

This thesis has not been previously submitted for any degree at this or at any other university.

Signed,
Ghadha Ibrahim Fouad
2018

Dedication

This dissertation is lovingly dedicated to my *Mother*, who supported me each step through the duration of my studies, her support, encouragement, and endless love have sustained me throughout my life & to my *sister* Heba who had never left my side and she is very special.

I lovingly dedicate this thesis to my family,
I love you.

Thank you,

Ghadha

Acknowledgement

To the almighty, most gracious and most merciful ALLAH, to him above all, humbly, apart from the efforts of myself, the success of any project depends largely on the encouragement and guidelines of many others. I take this opportunity to express my gratitude to the people who have been instrumental in the successful completion of this thesis.

A special gratitude I give to **Prof. Dr. Ibrahim H. Borai** and **Prof. Dr. Magda K. Ezz** whose contribution in stimulating suggestions and encouragement, supervision, in addition to, reading and criticizing the manuscript helped me to coordinate my research through the learning process of this Ph.D. thesis.

I would like to thank **Prof. Dr. Maha Z. Rizk**, for support, guidance, and supervision, as well as, the rest of my thesis committee including; **Prof. Dr. Hanan F. Ali**, **Prof. Dr. Mahmoud El-Sherbiny** and **Prof. Dr. Azza A. Matloub**. Furthermore, I would like to thank **Prof. Dr. Olfat Hammam**, Professor of Pathology at Theodor Bilharz Research Institute, for the histopathological study. Moreover, I would like to thank **Prof. Dr. Dalia Osama**, at Department of Pharmacology for her assistance in behavioural investigation.
