ABSTRACT

In assisted reproductive technology, as in any other field of medicine, there is always the quest to improve the treatment outcome. Innovations are always welcomed provided that they are neither associated with added complications

KEY WORDS

IVF, OHSS, ART, ET, EP, PIH, SOV.

Acknowledgement

First and foremost I feel always indebted to God. I would like to express the sincerest and everlasting gratitude to:

Prof. Dr. El Sayed Samy Azab, Professor of Obstetrics and Gynecology, Faculty of medicine, Cairo University, for giving me the honor to work under his supervision, and for his guidance and continuous support.

I am sincerely grateful to **Ass. Prof. Dr. Mostafa Mohamed El Sadek**, Ass. Professor of Obstetrics and Gynecology, Faculty of Medicine, Cairo University, for his kind supervision, encouragement and guideness.

I am also very grateful to **Dr. Gamal Eid**, Lecturer of Obstetrics and Gynecology, Faculty of medicine, Cairo University, for his help and valuable suggestions.

Khaled Fathy Mahmoud

Resident of Obstet & Gynecol.

Dedication

To the great God, the ever merciful, the all merciful.

To my dear wife Dr. Amal Mohamed and my brother Dr. Mahmoud Fathy who stand with me in each step in this essay . To my great family .

Khaled Fathy
