WATER RESOURCES ASSESSMENT
IN
SIWA OASIS

B 11494

BY
Eng. Mahasen Hassan Abou El Magd

A Thesis Submitted to the
Faculty of Engineering at Cairo University
In partial fulfillment of the
Requirement for the degree of
MASTER OF SCIENCE
In
CIVIL ENGINEERING

FACULTY OF ENGINEERING- CAIRO UNIVERSITY
-GIZA- EGYPT
December 2004

ACKNOWLEDGMENT

Thanks to God for everything. My great appreciation with some special regards to Prof. Dr. Abdel Wahab Amer, Faculty of Engineering, Cairo University, for his guidance, constructive comments and supervision of the work progress.

My deepest thanks to Assoc. Prof. Dr. Ashraf Ghanem, Faculty of Engineering, Cairo University, for his guidance, careful review in supervising this study.

My great appreciation to Pro. Dr. Ahmed Rashed Khater, Director of Research Institute of Groundwater, for his guidance in supervising this study.

Grateful thanks to Dr. Fatma A. Attia, the Director of Groundwater Sector, Ministry of Water Resources and Irrigation for her advice and generous help. I would like to express my gratitude and appreciation to Dr. Madiha Mostafa, the head of Information Department in The Research Institute for Groundwater (RIGW) for her kind encouragement, Dr. Sameh Attia Saker (RIGW) for his generous and continuous help, Dr. Saffa Mostafa (RIGW) for her generous help, Dr. El Hossary (RIGW) for his experience about the study area and Dr. Abdala Fayid, National Authority for Remote Sensing and Space Science. My great appreciation to all who helped directly or indirectly in bringing this thesis to light. All thanks to staff of RIGW for their help during this work.

Finally, a special appreciation to spirits of my parents, my husband, my sisters, my daughter and my sons.

TABLE OF CONTENTS

	Page
Acknowledgement.....	i
Table of contents.....	ii
List of figures.....	iv
List of tables.....	vi
List of abbreviations.....	viii
Abstract	ix
 Chapter 1- : Introduction	 1
1.1 General.....	1
1.2 Objectives of the study.....	2
1.3 Methodology.....	2
1.4 Location of the Study Area.....	3
1.5 Pervious studies	3
 Chapter 2- : Physical Features of Siwa Oasis.....	 8
2.1 Climate.....	8
2.1.1 Temperature	8
2.1.2 Relative humidity and evaporation intensity.....	8
2.1.3 Rainfall.....	9
2.1.4 Wind velocity.....	9
2.2 Topography.....	10
2.3 Geomorphological aspects.....	10
2.3.1 High lands.....	13
2.3.2 Low lands.....	13
2.4 Geological Set Up.....	18
2.4.1 Lithostratigraphy.....	18
2.4.2 Geological Structure.....	21
2.5 Hydrogeology.....	23
 Chapter 3 :- Hydrology of the aquifer system of Siwa Oasis	

Table of Contents.....continued	Page
3.1 Quaternary deposits.....	26
3.2 Fractured carbonate aquifer.....	31
3.3 Nubian Sandstone Aquifer.....	34
3.4 Water Quality.....	40
3.4.1 Hydrochemistry of the Nubian Aquifer.....	40
3.4.2 Hydrochemistry of the fractured carbonate aquifer.....	50
3.4.3 Drainage water	54
3.4.4 Evaluation of ground water quality.....	56
3.4.5 Summary of limits of quality.....	58
Chapter 4 - : Estimation of water components in Siwa Oasis.....	59
4.1 Horizontal recharge to Nubian Aquifer	59
4.2 Upward flow from the Nubian Sandstone to the carbonate aquifer	60
4.3 Evaporation losses from free water surface	61
4.4 Discharge of wells and springs.....	62
4.5 Water uses.....	64
4.5.1 Irrigation water.....	64
4.5.2 Industrial Water.....	70
4.5.3 Domestic and drinking water.....	70
4.6 Surface flow of drains to lake	70
4.7 Seepage flow from saturated zone to lakes.....	71
4.8 Change in the head of the Nubian aquifer.....	76
4.9 Summary and discussion of water components in Siwa Oasis.....	77
Chapter 5 -: Groundwater simulation modeling for Siwa Oasis	79
5.1 Input data for model.....	79
5.2 Boundary conditions.....	83
5.3 Initial conditions	83
5.4 Model calibration	83
5.5 Model application.....	84
5.6 Evaluation of results.....	94
Chapter 6 -: Conclusions and recommendations.....	95
