

# “Preparation of Different Types of Oil as Potential Base Stock for Production of Synthetic Lubricants.”

A Thesis Submitted for PhD Degree of Science in Chemistry

By

**Raghda Ahmed Said Ahmed El-Nagar**

M.Sc. in Science (Chemistry)

2013

Supervised by

**Prof. Sameh Ahmed Mohamed Rizk    Prof. Renee Ibrahim Abdallah**

Prof. of Organic Chemistry

Prof. of Petroleum Chemistry

Faculty of Science

Analysis & Evaluation Department

Ain Shams University.

Egyptian Petroleum Research Institute.

**Dr. Doaa Ibrahim Osman**

**Dr. Elsayed Khairy Attia**

Assistant Prof. of Organic Chemistry

Researcher of Organic Chemistry

Analysis & Evaluation Department Egyptian

Analysis & Evaluation Department

Petroleum Research Institute

Egyptian Petroleum Research Institute

To

Chemistry Department

Faculty of Science

Ain Shams University

2018

## Approval Sheet

Name of candidate: Raghda Ahmed Said Ahmed El-Nagar

Degree: Ph.D Degree in Chemistry

Title: Preparation of Different Types of Oil as Potential Base

Stock for Production of Synthetic Lubricants.

## Supervisors

## Acknowledgment

Firstly I should express my profound thankful to Allah by the grace of this work was accomplished.

This work has been financially supported by Research Support & Technology Development Grant (RSTDG) which is funded by Science & Technology Development Fund (STDF) under the project ID 25721.

I sincerely express my great thanks to Dr. Sameh Ahmed Mohamed Rizk, Assistant Professor of Organic Chemistry, Faculty of Science, Ain Shams University for his supervising and encouragement and following the progress with great interest.

I am deeply grateful to Prof. Dr. Renee Ibrahim Abdallah, Professor of Petroleum Chemistry, Analysis & Evaluation department, Egyptian Petroleum Research Institute for her supervision, valuable guiding and support during the progress of this work.

Deep thanks to Dr. Doaa Ibrahim Osman, Assistant Professor of Organic Chemistry, Analysis & Evaluation department, Egyptian Petroleum Research Institute and Dr. El-sayed Khairy Attia, Researcher of Organic Chemistry, Analysis & Evaluation department, Egyptian Petroleum Research Institute, for their supervision and beneficial help all over the work..

I would like to express my gratitude to all staff members of Egyptian Petroleum Research Institute especially members of the central lab and routin lab analysis for their co-operation.

Also, I would like to express my deeply thanks to my family for their support and giving me the strength to complete my work.

Raghda El-Nagar.....
