*Ferial
Mohamed*

**Head of Chemistry Department,
Faculty of Science,
Ain Shams University**

Prof. Dr. / Saad El. Sayed Mohamed

QUALIFICATION

Name : **Ammona Salem Mohamed**

Scientific Degree : M. SC.

Department : Chemistry

College : Faculty of Science

University : Suez canal University

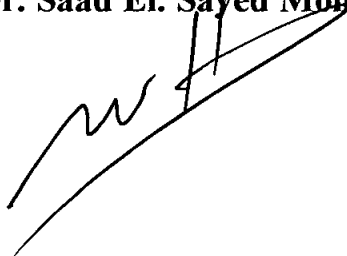

M. SC. Graduation Year : 1995

Head of Chemistry department

Faculty of Science

Ain Shams University

Prof. Dr. Saad El. Sayed Mohamed

ACKNOWLEDGEMENT

The author wishes to express her appreciation and gratitude to

Dr. Alyaa Abu Sheaishaa Shalaby

Assoc. Professor, Chemistry Department, Faculty of Science, Ain Shams University, for her interest and support throughout this work.

Sincere thanks are due to

Prof. Dr. Tawfik Mohamed Kassem

former Head of petrochemicals Department, Egyptian Petroleum Research Institute, for suggesting the research problem, guidance, advice and valuable help throughout the present investigation.

The author wishes also to express her warm gratitude to

Prof. Dr. Ferial M. Ghuiba

Petrochemicals Department, Egyptian Petroleum Research Institute, for continued interest, direct supervision, valuable assistance and honest advices.

The author is also indebted to the Egyptian Petroleum Research Institute, for the provision of the laboratory facilities.

CONTENTS

Subject	Page
- SUMMARY -----	i
I - INTRODUCTION -----	1
- Classification of surface active agents -----	2
A - Anionic Surfactants -----	3
- Sulphonates -----	3
- Sulphates and Sulphated products -----	8
- Phosphate esters -----	13
- The Field of Applications -----	15
B - Cationic Surfactants -----	17
- The fatty Amines C ₈₋₁₈ -----	17
- Oxygen - Free Amines -----	18
- Oxygen - Containing, Except Amides -----	23
- Quaternary Ammonium Salts -----	25
- Polymeric Cationic Surfactants -----	28
- The Field of Applications -----	28
C - Nonionic Surfactants: - -----	31
- Structure and reactivity of Ethylene oxide -----	32
- Classifications of nonionic Surfactants: - -----	34
- Poly oxy ethylene Alkyl phenols. -----	34
- Poly oxy ethylene Alcohols. -----	38
- Poly oxy ethylene Esters of fatty Acids. -----	40
- Poly oxy ethylene Mercaptans. -----	43
- Poly oxy ethylene Alkyl amines. -----	44
- Nonionic Surfactants containing an amide group. -----	45
- The Field of Applications -----	46

D - Amphoteric Surfactants	49
- Amino and Carboxyl ampholytes	49
- Amphoteric Imidazoline Derivatives	50
- Amino Sulphates	51
- The Field of Applications.	51

II - **Material and Experimental Techniques** --- 54

- Preparation of alkyl biphenyl ketones from acid chlorides	54
a- Preparation of the acid chloride	54
b- Preparation of the Alkyl biphenyl ketones	54
- Reduction of ketones to the corresponding alkyl biphenyls.	55
- Sulphonation of the prepared alkyl biphenyl ketones ----	57
- Sulphonation of the prepared alkyl biphenyls.	57
- Chloromethylation of alkyl biphenyls.	58
- Preparation of Cationic Surfactants from chloromethylated biphenyls.	58
- Preparation of alkyl biphenyl sulphonyl chlorides	59
- Preparation of alkyl biphenyl sulphonamides	59
- Condensation of the prepared alkyl biphenyl sulphonamides with ethylene oxide	60
- Preparation of nonionic Surfactants having different numbers of ethylene oxide moles	61
- Determination of the Surface active properties and Biodegradability of the prepared surfactants.	62
