**Vp/Vs Ratio Variations and Earthquake Prediction
in Aswan, Egypt.**

A thesis

Submitted to the Department of Geophysics,
Faculty of Science, Ain Shams University
For the partial Fulfillment of the Requirements
of the Degree of M.Sc.
in Geophysics

By

Mosbeh El-Zeen Megahed

National Research Institute of Astronomy
And Geophysics

Supervisors

Prof. Dr.

Ahmed S. A. Abu El- Ata

ACKNOWLEDGEMENT

I wish to express my gratitude to late Prof. Dr. Ahmed S. A. Abu El- Ata, in Geophysical department, Faculty of Science, Ain shams university, for his encouragement, supervision and discussions during this study.

To Prof. Dr. Ezz El-Din M. Ibrahim, in Seismological department, NRIAG (National Research Institute of Astronomy and Geophysics), for his encouragement, supervision and discussions during this study.

My thanks are also due to Dr. Amin Ibrahim, in Seismological department, NRIAG (National Research Institute of Astronomy and Geophysics), for his encouragement and discussions during this study.

Also my great thanks to all my colleagues in Aswan Seismological Center, (NRIAG) for their unfailing help to accomplish this work.

Finally, I would like to dedicate this work with deepest love to my wife.

Mosbeh E. Megahed

2000

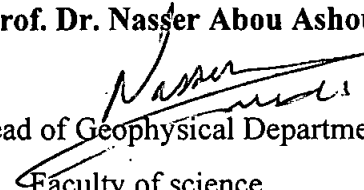

M. SC. COURSES STUDIED BY THE AUTHOR

(Mosbeh El zeen Megahed)
At Ain Shams University.

The present thesis is submitted from Mr. Mosbeh El zeen Megahed to the faculty of Science, Ain Shams University in the partial fulfillment for the requirements of Master degree of Science in Geophysics.

No.	Course.
1-	Geophysical field Measurements.
2-	Numerical Analysis and Computer programming.
3-	Elastic Wave Theory.
4-	Seismic Data Acquisition.
5-	Seismic Data Processing.
6-	Seismic interpretation.
7-	Seismology.
8-	Seismic engineering.
9-	Deep Seismic Sounding.
10 -	Structure of the earth.
11 -	English Language.

Prof. Dr. Nasser Abou Ashour

Head of Geophysical Department
Faculty of science,

CONTENTS

ACKNOWLEDGEMENT	I
M. SC. COURSES STUDIED BY THE AUTHOR.	II
CONTENTS	III
LIST OF FIGURES	IX
LIST OF TABLES	XV
ABSTRACT	XVII

CHAPTER I: INTRODUCTION

I. 1. Generalities	1
I. 2. Classification of the Stages of Earthquake Predictions.	2
I. 2. 1. Statistical prediction.	2
I. 2. 2. Tectonic prediction.	2
I. 2. 3. Physical prediction.	2
I. 2. 4. Quik alarm.	3
I. 3. The Five Stages of an Earthquake	5
I. 3. a. The first stage of an earthquake	5
I. 3. b. The second stage of an earthquake	5
I. 3. c. The third stage of an earthquake	7
I. 3. d: The forth stage of an earthquake	7
I. 3. e: The final stage of an earthquake	7
I. 4. The Composition, Constitutive Relation, and State of the Crust	9
I. 5. Historical Review of the Problem.	10
I. 6. The Reasons of Selecting Aswan Region for this Study. ...	15
I. 7. The High Dam and the induced sciesmicity.	19

CHAPTER II: GEOLOGICAL SETTING OF THE ASWAN AREA

II. 1. Generalities	21
II. 2. Geomorphic Features	23
II. 2.1. The Aswan Hills	23
II. 2. 2. The River Nile Valley	28
II. 2. 3. The Nubia Plain	28
II. 2. 4. Sinn El-Kaddab Plateau	29
II. 3. Stratigraphy	29
II. 3. 1. Precambrian Basement Rocks	30
II. 3. 2. The Dakhla Formation	31
II. 3. 3. The Kurkur Formation	32
II. 3. 4. The Dungul Formation	32
II. 4. Regional Structural Geology	32
II. 5. Tectonics in the Aswan Area	34
II. 5.1. Earthquake Focal Mechanisms	34
II. 5. 2. Late Cenozoic Faulting	35
II. 5. 2. 1. East-West Trending Faults	38
II. 5. 2. 1. a) Kalabsha Fault	38
II. 5. 2. 1. b) Seiyal Fault	38
II. 5. 2. 2. North-South Striking Faults	40
II. 5. 2. 2. a) Gable El-Barqa Fault	40
II. 5. 2. 2. b) Kurkur Fault	40
II. 5. 2. 2. c) Khor El-Ramla Fault	40
II. 5. 2. 2. d) Gazelle fault	41
II. 5. 2. 2. e) Abu Dirwa Fault	41

CHAPTER III: DATA ACQUISITION AND ANALYSIS

III. 1. Generalities	42
III. 2. The Aswan Telemetered Seismograph Network (ATSN)..	42
