B155--

Cairo University
Faculty of Veterinary Medicine
Department of Clinical Pathology

**CLINICOPATHOLOGICAL FINDINGS ASSOCIATED
WITH POST PARTUM OVARIAN INACTIVITY IN
BUFFALOES**

THESIS PRESENTED BY

Howayda El Sayad Mahmoud Mostafa Belal

B. V. Sc.
Cairo University
(1986)

Submitted
For M.V. Sc.
Clinical Pathology

Under the supervision of

Prof. Dr. Safaa Yasien Sayed Ahmed

Prof. and Head of Clinical Pathology Department
Faculty of Veterinary Medicine
Cairo University

Dr. Alaa R. Ahmed
Ass. Prof. of Clinical Pathology
Faculty of Veterinary Medicine
Cairo University

Dr. Mohamed A. Hegazy
Head of Bio and Nutr. Def., Res. Unit,
An. Reprod. Res. Instit.
Agri. Res. Center

(2002)

بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِیْمِ

﴿نَرْفَعُ دَرَجَاتٍ مِّنْ نَّشَأٍ وَفَوْقَ﴾

﴿كُلِّ ذِي عِلْمٍ عَظِيمٍ﴾

صدق الله العظيم

(من الآية ٧٦ - سورة يوسف)

DEDICATION

To My Husband

Eng. Ahmed Abd El-Ghafar

And My Daughter

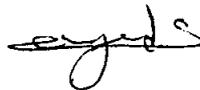

Kholoud

Cairo University
Faculty of Veterinary Medicine
Department of Clinical Pathology

Approval Sheet

This is to approve that the dissertation presented by Hawayda El-Sayed Mahmoud Mostafa Relal. at 7-9-2002 for the degree of M.V.Sc. (clinical pathology) has been approved by the examining committee.

1. **Dr. Said Aly Ahmed El-Assawy**

Head Department in research Institute of Animal Reproduction

2. **Prof. Dr. Mostafa M. Bashandy**

Prof. of Clinical Pathology

Fac. of Veterinary Medicine - Cairo University.

3. **Prof. Dr. Saffa Yassien Sayed Ahmed**

Prof. and head of Department of Clinical Pathology.

Fac. of Veterinary Medicine Cairo University (Supervision).

4. **D. Alaa Raafat Ahmed**

Prof. of Clinical Pathology

Fac. of Veterinary Medicine - Cairo University.

I-Introduction:	1
II- Review of Literature:	3
2.1. Incidence of post partum ovarian inactivity	3
2.1.1. In the world	3
2.1.2. In Egypt	10
2.2. Clinicopathological findings associated with post partum ovarian inactivity:	13
2.3. Hormonal changes associated with post partum ovarian inactivity	35
III-Material and Methods:	43
3.1.Material	43
3.1.1. Animals	43
3.1.2. Diagnostic kits	44
3.1.3. Equipments	44
3.2. Methods:	45
3.2.1. Clinical examination	45
3.2.1.1. External examination	45
3.2.1.2. Gynecological examination	45
3.2.1.3. Ultrasound examination	46
3.2.1.4. Detection of estrus	49
3.2.2. Clinicopathological examination	49

	Page
3.2.2.1. Sampling	49
3.2.2.2. Methods of clinicopathological examination	49
Determination of total protein (g/dl)	49
Determination of serum albumin and globulin and globulin level (g/dl)	50
Determination of A/G ratio	50
Determination of blood urea nitrogen (BUN) (mg%)	50
Determination of serum glucose (mg%)	50
Determination of serum ketone bodies (mg%)	51
Determination of total cholesterol level (mg%)	51
Determination of serum triglycerides (mg%)	51
Determination of serum AST (U/L)	52
Determination of serum ALT (U/L)	52
Minerals and trace elements ($\mu\text{g}\%$)	52
Determination of phosphorus level ($\mu\text{g}\%$)	53
Hormonal assay	53
A- Progesterone (ng/ml)	53
B- Triiodothyronine (T3)(ng/ml)	54
C- Insulin (ng/ml)	54
Statistical analysis	54

4. RESULT	55
5. DISCUSSION	79
- CONCLUSION	95
6. SUMMARY	96
7. REFERENCES	98
8. ARABIC SUMMARY	--

List of Tables

Table	Title	Page
(1)	Protein profile of buffaloes with post partum ovarian inactivity compared to control	61
(2)	Blood serum level of glucose, urea and transferases (ALT and AST) of buffaloes with post partum ovarian inactivity compared to control	62
(3)	Lipogram and ketone bodies of buffaloes with post partum ovarian inactivity compared to control	63
(4)	Macro-mineral profile of buffaloes with post partum ovarian inactivity compared to control	64
(5)	Micro-mineral profile of buffaloes with post partum ovarian inactivity compared to control	65
(6)	Hormonal profile of buffaloes with post partum ovarian inactivity compared to control	66

List of Figures

Fig.	Title	Page
(1A)	Total protein (g/dl) of buffaloes with post partum ovarian inactivity compared to control.	67
(1B)	Albumin (g/dl) of buffaloes with post partum ovarian inactivity compared to control.	67
(1C)	Globulin (g/dl) of buffaloes with post partum ovarian inactivity compared to control.	68
(1D)	A/G ratio of buffaloes with post partum ovarian inactivity compared to control.	68
(2A)	Glucose (mg %) of buffaloes with post partum ovarian inactivity compared to control.	69
(2B)	Urea (mg %) of buffaloes with post partum ovarian inactivity compared to control.	69
(2C)	ALT (u/ml) of buffaloes with post partum ovarian inactivity compared to control.	70
(2D)	AST (u/ml) of buffaloes with post partum ovarian inactivity compared to control.	70
(3A)	Ketone bodies (mg %) of buffaloes with post partum ovarian inactivity compared to control.	71
(3B)	Triglyceride (mg %) of buffaloes with post partum ovarian inactivity compared to control.	71
(3C)	Cholesterol (mg %) of buffaloes with post partum ovarian inactivity compared to control.	72
(4A)	Calcium (mg %) of buffaloes with post partum ovarian inactivity compared to control.	73

Fig.	Title	Page
(4B)	Phosphorus (mg %) of buffaloes with post partum ovarian inactivity compared to control.	73
(4C)	Ca/P of buffaloes with post partum ovarian inactivity compared to control.	74
(5A)	Copper ($\mu\text{g}/100\text{ml}$) of buffaloes with post partum ovarian inactivity compared to control.	75
(5B)	Zinc ($\mu\text{g}/100\text{ml}$) of buffaloes with post partum ovarian inactivity compared to control.	75
(5C)	Selenium ($\mu\text{g}/100\text{ml}$) of buffaloes with post partum ovarian inactivity compared to control.	76
(6A)	Progesterone (ng/ml) of buffaloes with post partum ovarian inactivity compared to control.	77
(6B)	T3 (ng/ml) of buffaloes with post partum ovarian inactivity compared to control.	77
(6C)	Insulin ($\mu\text{IU}/\text{ml}$) of buffaloes with post partum ovarian inactivity compared to control.	78
