B 154.7

**A comparative study on the effect of iontophoresis
on fluoride acquisition of primary and permanent
enamel in Egyptian children using sodium fluoride
and acidulated phosphate fluoride solutions**

THESIS

**Submitted to the faculty of oral and dental medicine
Cairo university**

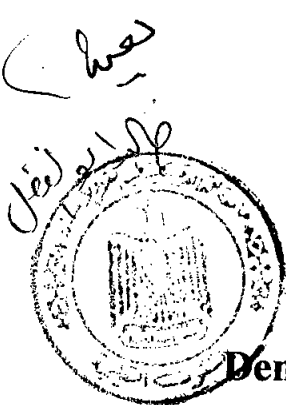

**In partial fulfillment of the requirements of master
degree in oral and dental medicine
Cairo university
(Pedodontics)**

Presented by

Hany Ahmed Hassan El Gamal

(B.D.S)

Dentist in Public Organization for Health Insurance

2004

A handwritten signature in black ink, slanted upwards to the right.

DEDICATION

TO MY BELOVED PARENTS *and*
SISTER,
SINCERE WIFE *and*
MEMORY OF MY BROTHER

Supervisors

*Professor Doctor : Sherine Ezz El Din Taha
Professor of pedodontics, Faculty of
Oral and Dental Medicine, Cairo
university.*

*Doctor : Ali Ali Mortada
Lecturer of pedodontics, Faculty of
Oral and Dental Medicine, Cairo
university.*

*Doctor : Maïssa Yacoub Salem
Assistant professor of analytical
chemistry, Faculty of Pharmacy,
Cairo university.*

Acknowledgment

I offer all my gratitude to Professor Doctor Sherine Ezz El Din Taha for the precious time she granted, her never-ending patience and sustained help.

I Also present all the appreciation to Doctor Ali Ali Mortada for his continuous support and endless assistance.

A lot of gratefulness to Doctor Maïssa Yacoub Salem for her hand to hand assistance, endurance and for the help she offered throughout all the stages of the thesis.

Many thanks to Doctor Amr Ezzat Abd El Latif for his great assistance that was never late especially in the practical work done.

Special thanks to professor doctor Laila El Sayed Abdei Fattah ,without her guidance from the first day and throughout the whole work it would have been difficult to go on especially with the analytical part.

I would like to express my deep gratitude to Professor doctor Nawal Ahmed Soliman for her caring, giving and endless support .She was backing us all the time.
