ACKNOWLEDGMENT

First of all thanks to Allah.

I wish to express my deep gratitude to **Professor Dr. Fatma Hasan Abdel Khalek**, Professor of Obstetrics and Gynecology for the valuable guidance, instructive supervision, sincere suggestions and encouragement.

I feel a special dept of gratitude to **Professor Dr. Amin Mohamed Ismaiel Ragab**, Professor of Obstetrics and Gynecology for his instructive advice, helpful criticism, sincere cooperation and guidance.

I am greatly indebted to **Dr. Ahmed Nabil Abdel Hameed Eissa** , Assistant Professor of Obstetrics and Gynaecology for his sincere help, kindness and encouragement throughout the accomplishment of this thesis.

It is of great pleasure to me to express my deep thanks to **Dr. Mohamed Ahmed Samy Kandeel**, Assistant Professor of Gynecology and Obstetrics, for his faithful supervision and continuous guidance throughout this work.

Last but not least, I would like to send all my great respect and truly sincere thanks to the great teacher **Dr. Thierry Vancaillie**, Associate Professor of Obstetrics and Gynecology, Royal Hospital for Women, Sydney, Australia, for providing me his time and support until I completed this study. His help and encouragement were above all imagination.

I wish also to thank all those who have participated in one way or another in execution and presentation of this study in its final form.

Dedication

*Dedicated To My
Mother
Father
&
Lovely Brothers*
