Analytical Study of Some Drugs Used in the Treatment of Hypertension

THESIS

Presented for the partial fulfilment of Master's degree in Pharmaceutical Sciences (Analytical Chemistry)

By

Ragaa Magdy Esmail El-Sayed

B.Sc. Pharmacy and Pharmaceutical Sciences, Ahram Canadian University, 2013 Department of Pharmaceutical Analytical Chemistry, Faculty of Pharmacy, Ahram Canadian University

Under Supervision of

Prof. Dr. Maha Farouk Abd El-Ghany

Professor of Pharmaceutical Analytical
Chemistry
and Dean of Faculty of Pharmacy,
Ain Shams University

Associate Prof. Dr. Omar Abd El-Aziz Ali Ghoneim

Associate professor of Pharmaceutical
Analytical Chemistry
Faculty of Pharmacy, Ain Shams University

Dr. Ahmed Hemdan

Lecturer of Pharmaceutical Analytical
Chemistry
Faculty of Pharmacy,
Ahram Canadian University

Dr. Nermine Victor Fares

Lecturer of Pharmaceutical Analytical
Chemistry
Faculty of Pharmacy,
Ain Shams University

Department of Pharmaceutical Analytical Chemistry
Faculty of Pharmacy
Ain Shams University
2018

ACKNOWLEDGMENT

All thanks to "ALLAH", the source of all knowledge, by his abundant grace, this work was accomplished. Words and thanks will never be enough for his blessing and guidance that aids me in each step in my life.

I would like to thank **Prof. Dr. Maha Farouk Abd El-Ghany**, Professor of Pharmaceutical Analytical Chemistry, and dean of Faculty of Pharmacy-Ain Shams University, for her kind and inspiring supervision, worthy advice and valuable guidance.

I would like to offer special thanks to **Associate Prof. Dr. Omar Abdel Aziz Ali Ghoneim,** Associate professor of Pharmaceutical Analytical Chemistry- Faculty of Pharmacy- Ain Shams University, who, although no longer with us, but continues to inspire the students he supervised over the course of his career by his example and dedication, I will never forget his valuable and fruitful advice.

I would like to express my deep everlasting thanks and profound gratitude to. **Dr. Ahmed Hemdan,** Lecturer of Pharmaceutical Analytical Chemistry, Faculty of Pharmacy- Ahram Canadian University, for his instructive advice, endless co-operation and valuable time that he sacrificed to teach me, revise, proofread the thesis, and to conduct the work presented in this thesis.

Last but not least, I wish to express my sincere appreciation to **Dr. Nermine Faris Victor**, Lecturer of Pharmaceutical Analytical Chemistry, Faculty of Pharmacy-Ain Shams University for her kind help, constructive comments, revising, and proofreading this thesis which made this work more professional.

I am really thankful to all my professors, lecturers, colleagues, technicians, and all staff members of Faculty of Pharmacy - Ahram Canadian University for their support and encouragement especially **Associate Prof. Dr. Shereen Mostafa Tawakkol,** Associate Professor of Analytical Chemistry, Faculty of Pharmacy - Helwan University and **Assistant Lecturer Ahmed Sheta**, for their unlimited co-operation and great support.

Words are inadequate in offering my thanks to **Dr. Nesma Mahmoud Mohammed Fahmy,** Lecturer of Pharmaceutical Analytical Chemistry, Faculty of Pharmacy- Ahram Canadian University for her kindness, endless co-operation and valuable time.

I am forever indebted to my father, Police Brigade and Assistant Minister Magdy Esmail El-Sayed, my mother Dr. Hayam Sayed Abd-Allah, my brother, and my sisters for their help, encouragement, understanding, and endless patience when it was most required for the successful completion of this thesis.

With affection, I dedicate this work to my beloved sons **Adam** and **Yaseen** and my sweet kind sister **Sherouk**.

To all of you, Thank you.

Ragaa Magdy Esmail El-Sayed

بسم الله الرحمن الرحيم (يَرْفَعِ اللهُ الَّذِينَ آمَنُوا مِنكُمْ وَالَّذِينَ أُوتُوا الْعِلْمَ دَرَجَاتٍ)

صدق الله العظيم

(أية 11 سورة المجادلة)

List of Tables	٧
List of Figures	ΧI
List of Abbreviations	XVI
Preface	1
Abstract	2
Part I: General Introduction	10
I.1.1. Pharmacological background	11
I.1.2. Prevalence of Hypertension	11
I.1.3. Risk factors	12
I.1.4. Complications	13
I.1.5. Prevention	13
I.1.6. Management	13
I.1.6.1. Non-pharmacological treatment	14
I.1.6.2. Pharmacological treatment	15
Part II: Literature Review	16
II.1. Trandolapril	17
II.2. Verapamil	22
II.3. Perindopril arginine	26
II.4. Indapamide	31
II.5. Amlodipine	38
II.6. Atorvastatin	46
Part III: Determination of the Studied Drugs by Spectrophotometric	
Methods With or Without Chemometric Assistance	50
Section A: Simultaneous Determination of Trandolapril and	
Verapamil by Recent Spectrophotometric Methods in Their Zero	
Order (D ₀) Spectrum	51
III.A.1. Introduction	52
III.A.1.1 Theoretical background	52
III.A.2. Experimental	53
III.A.3. Results and Discussion	56
III.A.4. Conclusion	59
Section B: Simultaneous Determination of Trandolapril and Verapamil	
by Recent Spectrophotometric Methods in their First Derivative (D_1)	
Spectrum:	68
III.B.1.Introduction	69
III.B.1.1 Theoretical background	69
III.B.2. Experimental III.B.3. Results and Discussion	69
III.B.4. Conclusion	71 73
Section C: Simultaneous Determination of Perindopril and	13
Indapamide by Recent Spectrophotometric Methods in Their Zero	
Order (D ₀) Spectrum:	80

III.C.1.1 Theoretical background	81
m.e.r.r meoretical background	81
III.C.2. Experimental	81
III.C.3. Results and Discussion	84
III.C.4. Conclusion	87
Section D: Simultaneous Determination of Perindopril ar	ıd
Indapamide by Recent Spectrophotometric Methods in their Fir	st
Derivative (D₁) Spectrum:	96
III.D.1. Introduction	97
III.D.1.1 Theoretical background	97
III.D.2. Experimental	97
III.D.3. Results and Discussion	100
III.D.4. Conclusion	103
Section E: Simultaneous Determination of Amlodipine ar	
Atorvastatin by Constant Value and Concentration Value	ıe
Spectrophotometric Methods:	113
III.E.1. Introduction	114
III.E.1.1 Theoretical background	114
III.E.2. Experimental	115
III.E.3. Results and Discussion	118
III.E.4. Conclusion	120
Section F: Simultaneous Determination of Amlodipine ar	
Atorvastatin by Absorbance subtraction and Amplitude Modulation	n
Spectrophotometric Methods:	127
III.F.1. Introduction
