Acknowledgement

I wish to thank God for supporting me in this enterprise.

I am deeply grateful to an exceptional person, my supervisor, Prof. Amal Mazhar, whose meticulous care and insightful suggestions helped me substantially throughout the thesis.

My warmest gratitude is owed to Dr. Ola Hafez, my co-supervisor. Her constructive criticism and continuous encouragement sustained me a lot in my study.

I also wish to thank my best and dear friends Basma Abd el Hamid and Aliaa El Gindi for their moral encouragement. Particular thanks to Aliaa El Gindi for providing me with a lot of material for my research. I also appreciate the moral support of my friend Wafaa.

Special thanks are due to my dear brother and his dear wife for their abiding support in the computer-writing of the thesis.

Finally, I am greatly indebted to my dear parents, my beloved sister for their consistent support and encouragement.

Last but not least I would like to express my love and appreciation to my dear husband, Ayman Said. I thank him for his help and unselfish support and for his continued love and encouragement.

CONTENTS
