Study of changes in serum Aluminum, Strontium and Cadmium in children with chronic renal insufficiency

A thesis

Submitted for partial fulfillment of
Master Degree in Pediatrics

By

Faisal Yousef Mohamed Yousef
M.B.,B.Ch., Ain Shams University

Under Supervision of

Prof. Dr. Farida Ahmed Farid
Professor of Pediatrics and Nephrology
Director of Pediatric Dialysis Unit
Faculty of Medicine, Ain Shams University

Prof. Dr. Sawsan M. Shawki El-Ghazali
Professor of Public Health and Behavior Medicine,
and Director of Behavior Medicine Unit
in Department of Public Health,
Faculty of Medicine, Ain Shams University

Dr. Ihab Zaki El-Hakim
Lecturer in Pediatrics
Faculty of Medicine, Ain Shams University

Acknowledgement

First and foremost, I thank **God** Almighty, the Beneficent and the Most Merciful.

I wish to express my sincere gratitude and appreciation to **Prof. Dr. Farida Ahmed Farid**, Professor of Pediatrics and Nephrology, Director of Pediatric Dialysis Unit, Faculty of Medicine, Ain Shams University for her generous help, eminent supervision and careful review of all the details of this work.

I am extremely grateful to **Prof. Dr. Sawsan M. Shawki El-Ghazali**, Professor of Public Health and Behavior Medicine, and Director of Behavior Medicine Unit in Department of Public Health, Faculty of Medicine, Ain Shams University for her continuous guidance, kind supervision and assistance offered throughout the entire work.

I want to express my deepest appreciation to **Dr. Ihab Zaki El-Hakim**, Lecturer in Pediatrics, Faculty of Medicine, Ain Shams University,

I would like to thank **Professor Dr. Ahmed Hessin Abd El Karim**, Professor of Industrial Medicine, National Research Centre, for his remarkable help and excellent experience in the practical part of this work.

Last but certainly not least, I am grateful to everyone who participated in the evaluation of this work.

Faisal Yousef

Contents

	Pages
Introduction.....	1
Aim of the Work.....	3
Review of Literature.....	4
• Aluminum.....	4
• Cadmium	18
• Strontium	32
• Chronic Renal Failure	37
Subjects and Methods	50
Results	54
Discussion	81
Summary and Conclusions	92
Recommendations	96
References.....	97
Arabic Summary.....	

List of Tables

Table	Pages
(1) Al content in human milk and infant formulae.....	6
(2) Progression of neurologic changes in children developing the encephalopathy of progressive renal failure	12
(3) Endocrine dysfunction in CRF.....	45
(4) Clinical data of HD patients	55
(5) Laboratory data of HD patients	56
(6) Serum Al, Cd and Sr in HD patients.....	57
(7) Clinical data of conservative patients.....	58
(8) Laboratory data of conservative patients....	59
(9) Serum Al, Cd and Sr among conservative patients.....	60
(10) Clinical and laboratory data of the control group.....	61
(11) Comparison between HD and conservative patients as regards some laboratory data...	62
(12) Comparison between HD patients and control group as regards some laboratory data..	64
(13) Comparison between conservative patients and control as regards some laboratory data	66
(14) Al, Cd and Sr levels in different water samples.....	68

List of Figures

Figure	Pages
(1) The mean serum Al level in the different groups of the study.....	69
(2) The mean serum Sr level in the different groups of the study	70
(3) The mean serum Cd level in the different groups of the study.....	71
(4) The mean % change from predialysis values of serum Al, Cd and Sr.....	72
(5) The correlation between serum Al and Hb concentration in HD patients.....	73
(6) The correlation between serum Al and Hb concentration in conservative patients.....	74
(7) The relation of bone disease to serum Al in HD and conservative patients.....	75
(8) The comparison between mean levels of serum Al in HD and conservative patients with and without neuropsychiatric manifestations.....	76
(9) The relation of bone disease to serum Sr levels in HD and conservative patients.....	77
(10)The relationship of neuropsychiatric problems to serum Sr levels in HD and conservative patients.....	78
(11)The relationship of bone disease to serum Cd levels in HD and conservative patients...	79
(12)The relationship of neuropsychiatric problems to serum Cd levels in HD and conservative patients.....	80
