Study Title: The Effect of Using "Dual Coding" on Developing EFL Preparatory Stage Students' Vocabulary Use

Author: Alaa Mohamed Abou Sree Abd El-Gawad

Advisors:

1- Dr. Asmaa Ghanem Gheith, Professor of Curriculum and Instruction (EFL), Faculty of Education, Ain Shams University.

2- Dr. Dalia Ibrahim Yahya, Lecturer of Curriculum and Instruction (EFL), Faculty of Education, Ain Shams University.

Institution: Faculty of Education, Ain Shams University, Department of Curriculum and Instruction.

Academic Year: 2018/2019

ABSTRACT

The study aimed to design a dual coding based program to develop EFL preparatory stage students' vocabulary use. The design of the present study was based on the one-group design. Participants of the study were a class of 2nd year, preparatory stage students (n=30) in Dar Al-Eloum preparatory school, Al-Salam administration, in the academic year 2017/2018. The study started with a review of literature and previous studies related to dual coding, animation as well as vocabulary use. The study utilized the following three instruments: a list of vocabulary use components, a pre/post vocabulary use test, and an analytic vocabulary use rubric. Then, the researcher designed the study program based on dual coding. In this study, the researcher used animated short stories as an audiovisual material to expose participants to use language in various contexts. They received training on vocabulary use through the proposed program based on dual coding. The participants' scores on the pre and posttest were statistically analyzed, using t-test and effect size. A qualitative analysis of the participants' performance was also conducted. Results revealed that using dual coding was effective in developing the second-year preparatory stage students' vocabulary use.

Keywords: Dual coding, EFL vocabulary use.

Acknowledgements

I would like to express my deep gratitude for my advisors, **Dr. Asmaa Ghanem Gheith** and **Dr. Dalia Ibrahim Yahya** for their unconditional and continuous support, enormous patience and thoughtful guidance.

I must acknowledge the limitless encouragement and freedom granted to me by **Dr. Asmaa Ghanem Gheith** to design, implement and report a research that met my interests and that challenged me to discover new skills and resources within myself. She has provided me with tremendous support and responsiveness and greatly assisted me with her insightful comments and continuous feedback in refining and editing my research. I warmly thank her for trusting in my abilities and for always encouraging me to go on. I owe her a lot.

I am very grateful to **Dr. Dalia Ibrahim Yahya** for the confidence she demonstrated for my work and abilities, and for the thoughtful, constructive feedback she consistently provided me. She always drew my attention to things I had not been aware of. She has helped and supported me with her thorough comments and remarks.

I would also like to thank **Dr. Zeinab El-Naggar**, professor of Curriculum and Instruction (EFL), Faculty of Education, Ain Shams University, for accepting to examine this study and to be a part of the oral examination committee. I thank her for her valuable comments and remarks and for her valuable time and effort to enhance and enrich my work.

Thanks and appreciation are extended to **Dr. Heba Mostafa Mohamed**, assistant professor of Curriculum and Instruction (EFL), Faculty of Education, Beni Suef University, for accepting to be a part of the oral examination committee and to examine this study. I thank her for her insightful comments and remarks and for her valuable time and effort to help me refine my work.

I deeply thank each of my wonderful students who participated in the study and helped me through the experimental part.

My sincere gratitude goes to my beloved family whose unconditional love and support have helped me all through the research journey; especially, my father who represents the source of motivation to do this research, my wonderful mother, for her constant support and encouragement. I am also indebted to my brother for his silent contributions and faith in my abilities, my precious sisters, for their spiritual support and endless love. Without their contributions of time and thoughtful help, this research would not have possible. Finally, I thank my dear daughter, Mariam, whose love has urged me to keep on. She remains more than anything I can put in words.
