(1.1.1.1)

﴿ قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا عَلَّمْتَنَا

﴿ إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ ۝

البقرة (٣٢)

Acknowledement

First and foremost, thanks are due to ALLAH, The Kind , The Merciful whose blessing on me can not be counted.

It is a great honor for me to take this opportunity to express my deepest gratitude to my **Prof. / Soheir Sayed Abou El-Ella** Professor of Pediatrics, Faculty of Medicine Minoufiya University for selection of this subject, expert guidance, kind supervision and valuable suggestions and advice offered to me throughout this work and without her generous encouragement and support, this work wouldn't come out.

The sincerest thanks, deep appreciation and greatest admiration to my **Prof. / Fahima Mohamed Hassan** Professor of Pediatrics Faculty of Medicine Minoufiya University for her sincere devotion, kind supervision and helpful guidance during conduction of this work .She continuously advice me and spared no time or effort to offer her help and skill .

I am especially grateful to **Prof. / Fady Mohamed El Gendy** Professor of Pediatrics Faculty of Medicine Minoufiya University, for his sincere and experienced guidance, kindness, continuous supervision and creative suggestions for completion of this study.

My special thanks to **Prof. / Hatem Mahmoud Al Sebai** Professor of Biochemistry Faculty of Medicine Minoufiya University, for his most kind, continuous help and encouragement and for his cooperation and enthusiasm.

I am grateful to **Dr. / Hesham Hefny Al-Feky**. (M.D radiology) ,the director of Al- Safa DEXA center, for his experienced guidance, explanations, directions and help all over the radiological practice of this work.

Lastly thanks to all members of the pediatric department for their kind moral support as well as to all the lovely children who shared in this thesis.

Dr. /Gehan Fareed Oreeby
