بسم الله الرحمن الرحيم

قالوا سبحانك

لا علم لنا إلا ما علمتنا

إنك أنت العليم الحكيم

صدق الله العظيم

البقرة (٣٢)

ACKNOWLEDGMENT

I would like to express sincere appreciation and deepest gratitude to Professor ***Dr. Soheir Mohammed Gamal El-Din, Professor of Internal Medicine and Endocrinology, Faculty of Medicine, Ain Shams University***, for her kind advice, generous help, and continuous support throughout this work.

I am also deeply grateful to ***Professor Dr. Hussein El-Orabi, Professor of Internal Medicine and Endocrinology, Faculty of Medicine, Ain Shams University***, for his great help, expert advice, and meticulous supervision throughout this work.

I am also extremely indebted to ***Dr. Nermin sheriba, Assistant Professor of Internal Medicine and Endocrinology, Faculty of Medicine, Ain Shams University***, for her guidance and unlimited effort and assistance during every step of this work.

I wish also to express my deepest thanks to ***Dr. Nihad Shoeib, Assistant Professor of Internal Medicine and Endocrinology, Faculty of Medicine, Ain Shams University***, for her great help and encouragement throughout this work.

I wish also to express my deepest appreciation to the late ***Dr. Malak Hassan Bahgat, Assistant Professor of Internal Medicine and Endocrinology, Faculty of Medicine, Ain Shams University***.

I wish also to express my thanks to ***Dr. Magdy Abbas Abd El-Aziz, Fellow of Biochemistry, Ain Shams University Hospitals***, who offered me a lot of his effort and time to complete the laboratory part of this work.

I would also like to express my thanks to ***Dr. Afaf Abd El-Wahab Haggag, Fellow of Internal Medicine and Endocrinology, Faculty of Medicine, Ain Shams University***, for her help in this work.

I wish also to express my thanks to ***Dr. Iman Zaki, Assistant Lecturer of Internal Medicine and Endocrinology, Faculty of Medicine, Ain Shams University***, for her kind help in this work.

LIST OF TABLES

No.	Title	Page
A	Selectins	16
B	Integrins	24
C	Some members of the immunoglobulin superfamily	35
D	Blood levels of circulating ICAM-1	46
E	Factors that influence thyroglobulin-binding globulin (TBG)	67
F	Prevalence of thyroid autoantibodies	80
G	Classification of autoimmune thyroiditis	84
H	Expression of adhesion molecule in thyroid tissues from patients with autoimmune thyroid diseases	101
1	Results of the thyroid profile and sICAM-1 of the hypothyroid group (group-1)	145
2	Results of the thyroid profile and sICAM-1 of the simple nodular goiter (group-2)	146
3	Results of the thyroid profile and sICAM-1 of the patients with solitary thyroid nodule (group-3)	147
4	Results of the thyroid profile and sICAM-1 of the toxic multinodular goiter group (group-4)	148
5	Results of the thyroid profile and sICAM-1 of the patients with Graves' disease without ophthalmopathy (group-5)	149
6	Results of the thyroid profile and sICAM-1 of the patients with Graves' disease with ophthalmopathy (group-6)	150
7	Results of the thyroid profile and sICAM-1 of the control group	151
8	Comparison between control group and hypothyroid group	152
9	Comparison between control group and simple multinodular goiter (SMNG) group	153

LIST OF TABLES, Cont...

No.	Title	Page
10	Comparison between control group and solitary thyroid nodule	154
11	Comparison between control group and toxic multinodular group (TMNG)	155
12	Comparison between control group and group with Graves' disease (GD) without ophthalmopathy (GO)	156
13	Comparison between control group and group with Graves' disease (GD) with ophthalmopathy (GO)	157
14	Comparison between control group and group with Graves' disease (GD) with and without ophthalmopathy	158
15	Comparison between different studied groups regarding mean sICAM-1 levels	159
16	Comparison between patients with Graves' disease before and after treatment	160
17	Comparison between patients with hyperthyroidism (Graves' disease and toxic multinodular goiter) before and after treatment	161
18	Correlation study between sICAM-1 and other parameters among control subjects	162
19	Correlation study between sICAM-1 and other parameters among hypothyroid patients	162
20	Correlation study between sICAM-1 and other parameters among patients with simple multinodular goiter	163
