Acknowledgement

First and foremost, thanks to God, the most beneficent and most merciful.

I wish to express my sincere appreciation and deepest gratitude to Prof. Dr. Naglaa Ali Gad-Allah, Professor of Physical Medicine and Rehabilitation, Faculty of Medicine, Ain Shams University, for her continuous supervision, constructive encouragement, illuminating guidance as well as her support throughout this work.

I am deeply grateful to Dr. Mervat Abd El Hakim, Assistant Professor of Physical Medicine and Rehabilitation, Faculty of Medicine, Ain Shams University, who devoted her time, effort and experience most generously throughout this work and for her help and valuable observations which made it possible to complete this work.

I am greatly honoured to express my endless gratitude to Dr. Hanan Ahmed Fahmy, Assistant Professor of Physical Medicine and Rehabilitation, Faculty of Medicine, Ain Shams University, for the time she spent and the effort she paid in helping me during this work. It was a great honour and a chance of a lifetime to work with her.

*My gratitude and thanks to Dr. Gelan El Saadawi,
Lecturer of Clinical Pathology, Faculty of Medicine,
Ain Shams University, for her help and cooperation in
this work.*

*Last, but not least, my thanks to all my colleagues for
their cooperative spirit and help.*
