**Pharmacological Evaluation of Possible Antiulcer Effects
of Certain Natural and Synthetic Agents
in Normal and Protein Malnourished Animals**

Thesis Submitted for the Degree of Master in Pharmaceutical Sciences
(Pharmacology & Toxicology)

By

Marwa Mohamed Safar
B. Pharm. Sci. (Cairo University)
Demonstrator of Pharmacology & Toxicology
Faculty of Pharmacy
Cairo University

Under the Supervision of

Prof. Dr. Mostafa E. El-Sayed
Professor of Pharmacology
& Toxicology
Faculty of Pharmacy
Cairo University

Prof. Dr. Sanaa A. Kenawy
Professor & Head of Pharmacology
& Toxicology Department
Faculty of Pharmacy
Cairo University

Prof. Dr. Azza M. Agha
Professor of Pharmacology
& Toxicology
Faculty of Pharmacy
Cairo University

Faculty of Pharmacy
Cairo University
2004

بسم الله الرحمن الرحيم

دعاء

اللهم صلى و سلم و بارك على نبيك و حبيبك محمد و على اله
و صحبه و من تبع سنته الى يوم الدين. اللهم زدنى علما لا
لأمارى به السفهاء و لا لأخاف به العلماء و لا لأصرفه أوجه الناس
الى و لكن ابتغاء وجهك الكريم. اللهم علمنى ما ينفعنى
و انفعنى بما علمتنى.

1. Prof. Dr. Mostafa E. El-Sayed

Professor of Pharmacology & Toxicology,
Faculty of Pharmacy, Cairo University.

M. E. El-Sayed

2. Prof. Dr. Sanaa A. Kenawy

Professor & Head of Pharmacology
& Toxicology Department,
Faculty of Pharmacy, Cairo University.

Sanaa A. Kenawy

3. Prof. Dr. Azza M. Agha

Professor of Pharmacology & Toxicology,
Faculty of Pharmacy, Cairo University.

Azza M. Agha

4. Prof. Dr. Ezzeddin S. El-Denshary

Professor of Pharmacology & Toxicology,
Faculty of Pharmacy, Cairo University.

Ezzeddin S. El-Denshary

5. Prof. Dr. Shehta A. Saied

Professor of Pharmacology & Toxicology,
Faculty of Pharmacy, El-Mansoura University.

Shehta A. Saied

Date: 10 / 7 / 2004

Prerequisite postgraduate courses

Beside the work presented in this thesis, the candidate has attended the following courses for one year:

General courses

Computer and its applications

Literature search and scientific English language

Basic statistics

Department courses

Pathophysiology of diseases

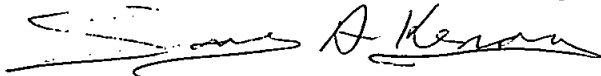

Pharmacometrics and screening of drugs and biostatistics

Toxicometrics

Immunopharmacology

She has successfully passed an examination in these courses with general grade "Excellent"

Prof. Dr. Sanaa A. Kenawy

Head of Pharmacology & Toxicology Department
Faculty of Pharmacy
Cairo University

Acknowledgments

I wish to express my profound thanks and sincere gratitude to **Prof. Dr. Mostafa E. El-Sayed**, Professor of Pharmacology & Toxicology, Faculty of Pharmacy, Cairo University for his kind, exemplary supervision. Being apparently a supervisor but he is really a father for me. He sincerely guided me in my career as well as my personal life. I would also like to thank him for the time he spared for me and for his constructive comments during writing and revising this thesis. He is such a unique person. I think I'll never meet someone like him again.

I am sincerely grateful to **Prof. Dr. Sanaa A. Kenawy**, Professor and Head of Pharmacology & Toxicology Department, Faculty of Pharmacy, Cairo University for her keen supervision, indispensable remarks and continuous encouragement throughout this study. I would also like to express to her my gratitude for being patient with me during all the stages of this work. The valuable time she sacrificed for me during the exhaustive process of revising this thesis is highly appreciated.

It also gives me a pleasure to express my sincere thanks to **Prof. Dr. Azza M. Agha**, Professor of Pharmacology & Toxicology, Faculty of Pharmacy, Cairo University for her nice supervision, excellent technical advices, deep experience, generous assistance, fruitful help and kind relation. I will never forget that she has put me on the right way and that she exerted much effort to organize this work. She has contributed to my professional growth.

Special gratefulness goes to **Dr. Dalia Hussein Abd El-Aziz**, lecturer of Histology, Faculty of Medicine, Beni-Suef University for her professional aid in carrying out the histological part of this thesis.

I'm heavily indebted to my beloved **Mother**. Neither words nor the available space can describe my gratitude for her care, tenderness and support. I owe her my success. I am profoundly grateful to my dear **Father** for his continuous encouragement, constant direction, endless patience and tremendous sacrifice. I am deeply thankful to my brother **Mahmoud** and my sister **Mona** who spared no effort to give me all the assistance, encouragement and love, which were capable to push me forward.

Finally, I would like to extend my gratitude to all staff members and my colleagues in the Pharmacology & Toxicology Department, Faculty of Pharmacy, Cairo University for their cooperation and support.

Marwa Safar

To My Beloved Parents

Subject	Page
List of Tables	iii
List of Figures	v
Introduction	
• Peptic Ulcer	1
• Protein Malnutrition	18
• Oxidative Stress	28
• Drugs	42
Aim of the Work	49
Materials and Methods	
• Materials	51
• Experimental Design	57
• Methods	
I- Induction of gastric ulcer	64
II- Assessment of gross mucosal damage	64
III- Preparation of tissue samples	65
IV- Treatment of blood samples	65
V- Determination of protein	66
VI- Determination of albumin	69
VII- Determination of lipid peroxides	71
VIII- Determination of reduced glutathione	75
IX- Determination of superoxide dismutase	79
X- Determination of nitric oxide	82
XI- Determination of serum gastrin	85
XII- Histological examination	88
XIII- Statistical analysis	89

Results	90
Discussion	166
Summary and Conclusions	187

Arabic Summary	Ⓟ

List of Tables

Table	Page
1. Effect of different ethanol concentrations on induction of gastric ulcer and oxidative stress biomarkers in rats	91
2. Effect of some test drugs on ethanol-induced gastric ulcer and oxidative stress biomarkers in rats	94
3. Effect of time of administration of rutin on its antiulcerogenic potential against ethanol-induced gastric ulcer in rats	97
4. Time course study for body weight of rats fed different dietary protein concentrations	101
5. Time course study for serum total protein of rats fed different dietary protein concentrations	105
6. Time course study for serum albumin of rats fed different dietary protein concentrations	108
7. Time course study for serum globulin of rats fed different dietary protein concentrations	112
8. Time course study for serum albumin/globulin of rats fed different dietary protein concentrations	115
9. Influence of different dietary protein concentrations on ethanol-induced gastric ulcer and oxidative stress biomarkers in rats	118
10. Influence of protein malnutrition on body weight and serum total protein in rats	121
11. Influence of protein malnutrition on ethanol-induced gastric ulcer in rats	124
12. Influence of protein malnutrition on oxidative stress biomarkers in gastric mucosa of rats subjected to ethanol-induced gastric ulcer ...	127
13. Influence of protein malnutrition on oxidative stress biomarkers in blood of rats subjected to ethanol-induced gastric ulcer	130
14. Influence of protein malnutrition on serum gastrin of rats subjected to ethanol-induced gastric ulcer	133

15. Effect of different drug treatment on ethanol-induced gastric ulcer in normally-fed rats	136
16. Effect of different drug treatment on oxidative stress biomarkers in gastric mucosa of normally-fed rats subjected to ethanol-induced gastric ulcer	139
17. Effect of different drug treatment on oxidative stress biomarkers in blood of normally-fed rats subjected to ethanol-induced gastric ulcer	142
18. Effect of different drug treatment on serum gastrin in normally-fed rats subjected to ethanol-induced gastric ulcer	145
19. Effect of different drug treatment on ethanol-induced gastric ulcer in protein malnourished rats	148
20. Effect of different drug treatment on oxidative stress biomarkers in gastric mucosa of protein malnourished rats subjected to ethanol-induced gastric ulcer	151
21. Effect of different drug treatment on oxidative stress biomarkers in blood of protein malnourished rats subjected to ethanol-induced gastric ulcer	154
22. Effect of different drug treatment on serum gastrin in protein malnourished rats subjected to ethanol-induced gastric ulcer	157
