Severity Prediction In Acute Pancreatitis

Essay

Submitted in Partial Fulfillment for the
requirement of the master degree of
General Surgery

By

Ibrahim Metwally Abd Elaziz

M.B., B.Ch

Suez Canal University

65626

Under Supervision Of

Prof. Mohamed Said Kamel

Professor of General Surgery

Faculty of Medicine, Ain Shams University

Prof. Refaat Moatasem El Feky

Assist. Prof. of General Surgery

Faculty of Medicine, Ain Shams University

Dr. Ahmed Ibrahim

Lecturer of General Surgery

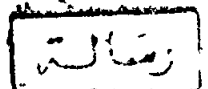

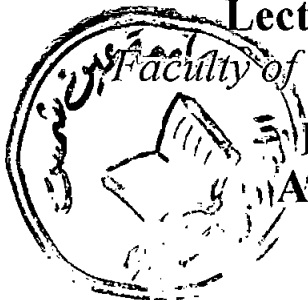

Faculty of Medicine, Ain Shams University

Acknowledgement

I wish to express my deepest gratitude and thanks to Prof. Dr. Mohamed Said Kamel professor of general surgery, faculty of medicine . Ain shams university under whose supervision this work has been carried out. His helpful advice and constructive guidance are greatly acknowledged and deeply appreciated.

I would like to express my deepest thanks and gratitude to Dr. Refaat Moatasem Elfeky, Assistant professor of general surgery, Faculty of medicine , Ain Shams university , for his keen interest, Meticulous supervision, constant guidance and sacrificing his valuable time to revise and criticize this work.

I would like to express my deepest gratitude and Thanks to Dr. Ahmed Ibrahim, lecturer of general Surgery faculty of Medicine , Ain shams University , for his valuable support , kind advice , indispensable comments, encouragement and help in bringing work forward.

Contents

• Introduction	1
• Review of literature	
1. Anatomy and Embryology of the pancreas	3
2. Histology of the Pancreas	20
3. Acute Pancreatitis	25
3.1. Definition of acute pancreatitis	25
3.2. Etiology of acute pancreatitis	26
3.3. Pathophysiology of acute pancreatitis	28
3.4. Clinical presentation of acute pancreatitis	34
3.5. Treatment of acute pancreatitis	36
3.6. Complication of acute pancreatitis	42
3.7. Prognosis of acute pancreatitis	45
3.8. After care of acute pancreatitis	47
4. Scoring systems in acute pancreatitis	48
• Conclusion and summary	71
• References	72
• Arabic summary	

List of figures

Fig.	Page
1- Embryonic development.	3
2- The five parts of the pancreas.	5
3- Diagrammatic sagittal section through the neck of the pancreas.	7
4- The T arrangement of mucosal folds of the duodenum indicating the site of the major duodenal papilla.	11
5- Diagram of the relations of the pancreatic and common bile ducts.	13
6- Diagram of the four sphincters making up the sphincter of Boyden.	14
7- Posterior view of the major arterial supply to the pancreas.	15
8- Anterior view of the major arterial supply to the pancreas.	16
9- Anterior view of the venous drainage of the pancreas.	17
10-Posterior view of the venous drainage of the pancreas and the tributaries of the hepatic portal vein.	18
11-Lymphatic drainage of the pancreas.	19
12-Diagram of a small portion of the pancreas as seen by low-power electron microscopy.	24
13-A Pancreatic digestive and lysosomal enzymes synthesis.	31
14- BMI Score and severity.	63
15- Pancreatic activation peptides.	66

List of Tables

Table	Page
1-Causes of acute pancreatitis	27
2-Indications for surgery in severe Acute pancreatitis	45
3-Scoring systems for prediction of severity of acute pancreatitis	50
4-APACHE II score Acute Physiology And Chronic Health Evaluation	52
5-Simplified Acute Physiology Score II (SAPSII)	55
6-Glasgow coma scale	56
7-Clinical and biochemical criteria of bank and wise	57
8-APACHE-0 versus APACHE-II in predicting severity	59
9-Selection of predictor according to time delay after onset of symptoms	68
