Agriculture Botany Department
Faculty of Agriculture
Minufiya University

ANALYSIS OF LEAF RUST RESISTANCE IN SOME EGYPTIAN WHEAT VARIETIES

By

Walid Mohamed El-Sayed El-Orabey

B.Sc. Agric. Sci. (Plant Pathology), Minufiya Univ., 1997

Thesis

Submitted in Partial Fulfillment of the
Requirements for the Degree of

Master Of Agricultural Science

In

Plant Pathology

Prof. Dr.

Mohamed Nazim Sayed Ahmed

Prof. of Plant Pathology and Vice
President for post graduate and research

Prof. Dr.

El-Said Zaki Khalifa

Prof. of Plant Pathology
Faculty of Agriculture

Dr.

Abdelmegid Ibrahim Fahmi

Associate Professor of Genetics
Faculty of Agriculture

2002

B

15/5/2002

APPROVAL SHEET

ANALYSIS OF LEAF RUST RESISTANCE IN SOME EGYPTIAN WHEAT VARIETIES

By

Walid Mohamed El-Sayed El-Orabey

For the degree of

Master of Agriculture Science

In

Plant Pathology

Examiner's Committee:

Prof. Dr. Youssef El-Daudi

Professor of Plant Pathology,
Head of Plant Quarantine Department.

Prof. Dr. Mohamed Mohamed Amar

Professor of Plant Pathology
Faculty of Agriculture.

Prof. Dr. Mohamed Nazim Sayed-Ahmed

Professor of Plant Pathology,
Vice president for post graduate and Research,
Minufiya University.

Prof. Dr. El-Said Zaki Khalifa

Professor of Plant Pathology
Faculty of Agriculture.

Approved by:

Y. H. El-Daudi

M. M. Amar

M. Nazim

S. Z. Khalifa

Date: / / 2002

SUPERVISION COMMITTEE

ANALYSIS OF LEAF RUST RESISTANCE IN SOME EGYPTIAN WHEAT VARIETIES

By

Walid Mohamed El-Sayed El-Orabey

For the degree of

Master of Agriculture Science

In

Plant Pathology

Prof. Dr. Mohamed Nazim Sayed-Ahmed

.....*M. Nazim*.....

Professor of Plant Pathology
Vice president for post graduate and Research
Minufiya University.

Prof. Dr. El-Said Zaki Khalifa

.....*E. Z. Khalifa*.....

Professor of Plant Pathology
Faculty of Agriculture
Minufiya University.

Dr. Abdelmegid Ibrahim Fahmi

.....*A. I. Fahmi*.....

Ass. Professor of Genetics
Faculty of Agriculture
Minufiya University.

ACKNOWLEDGMENT

*The author wishes to express his sincere appreciation and deepest gratitude to **Prof. Dr. M. Nazim**, Professor of Plant Pathology and Vice President for post graduate and research, Minufiya University for suggesting the problem, effective scientific supervision, valuable advice and help during this work.*

*Thanks also to **Prof. Dr. E. Khalifa**, Professor of Plant Pathology, Faculty of Agriculture, Minufiya University, for his supervision and valuable advice.*

*Deepest gratitude and sincere appreciation to **Dr. A. Fahmi**, Association Professor of Genetics, Faculty of Agriculture, Minufiya University, who supervised all laboratory work and guided in writing part of this work.*

*Grateful appreciation are extended to **Dr. H. Nagaty**, Lecture of Genetics, Faculty of Agriculture, Minufiya University, for assisting in the laboratory work.*

*Special deepest gratitude to **Dr. O. Boulot**, Researcher of Plant Pathology, Wheat Disease Research Department, Plant Pathology Institute, for his assistance in writing and valuable advice.*

*Also, the author would like to express his special deepest gratitude to **Dr. S. Hasseb El-Nabi** Association Professor of Genetics, Faculty of Science, Minufiya University, who help in part of this work.*

Thanks are also extended to all members of the Agriculture Botany Department, Minufiya University and the members of Wheat Research Disease Department, Plant Pathology Research Institute, for their cooperation, help and facilities provided.

CONTENTS

	<i>Page</i>
I. INTRODUCTION	1
II. REVIEW OF LITERATURE	3
A. Identification of the wheat leaf rust resistant genes at the seedling stage.	3
B. Identification of the adult plant leaf rust resistance genes in wheat ...	10
C. Identification of the wheat leaf rust resistance genes using molecular markers	20
III. MATERIAS AND METHODS	36
1. Wheat genotypes	36
2. Collection of leaf rust materials	36
3. Greenhouse studies	39
3.a. Isolation and purification	39
3.b. Inoculation	39
3.c. Disease assessment	40
3.d. Evaluation of F ₂ seedlings against leaf rust under greenhouse conditions	42
4. Field studies	42
4.a. Field inoculation	43
4.b. Disease assessment	43
4.c. Evaluation of F ₂ plants against leaf rust under field conditions	44
5. Laboratory studies	45
5.1 Plant material	45
5.2. Extraction of DNA	45
5.2.a. Solution used	45
5.2.b. Plant tissue preparation	46
5.2.c. Extraction procedure	46
5.3. Sequence characterized amplified regions (SCARs) technique	47

5.3.a. Preparation of PCR reactions	48
5.3.b. Thermocycler program and temperature profile	48
5.3.c. Gel electrophoresis of PCR products	48
5.3.d. Preparation of agarose gel	49
5.3.e. Estimate of size of SCARs fragment	49
IV. RESULTS	51
1. Identification of leaf rust resistance genes in some wheat Giza varieties	51
Greenhouse studies	51
1.1. Identification of seedling leaf rust resistance genes in some wheat Giza varieties	51
1.1.a. Identification of the leaf rust resistance gene <i>Lr 10</i>	51
1.1.b. Identification of the leaf rust resistance gene <i>Lr 16</i>	54
1.1.c. Identification of the leaf rust resistance gene <i>Lr 18</i>	56
1.1.d. Identification of the leaf rust resistance gene <i>Lr 24</i>	58
1.1.e. Identification of the leaf rust resistance gene <i>Lr 26</i>	60
1.1.f. Identification of the leaf rust resistance gene <i>Lr 36</i>	62
1.1.g. Seedling leaf rust resistance genes identified in some Giza wheat varieties ...	64
Field studies	66
1.2. Identification of adult plant leaf rust resistance genes in some wheat Giza varieties	66
1.2.a. Identification of the leaf rust resistance gene <i>Lr 9</i>	66
1.2.b. Identification of the leaf rust resistance gene <i>Lr 12</i>	68
1.2.c. Identification of the leaf rust resistance gene <i>Lr 13</i>	68
1.2.d. Identification of the leaf rust resistance gene <i>Lr 24</i>	71
1.2.e. Identification of the leaf rust resistance	71

gene <i>Lr</i> 34	
1.2.f. Identification of the leaf rust resistance gene <i>Lr</i> 35	74
1.2.g. Identification of the leaf rust resistance gene <i>Lr</i> 36	74
1.2.h. Adult plant leaf rust resistance genes identified in some Giza wheat varieties ...	77
Laboratory studies	79
2. Detection of the leaf rust resistance gene <i>Lr</i> 10 by SCAR technique .	79
2.1. Detection of the leaf rust resistance gene <i>Lr</i> 10 in monogenic lines	79
2.2. Detection of the leaf rust resistance gene <i>Lr</i> 10 in wheat varieties	79
2.3. Detection of the leaf rust resistance gene <i>Lr</i> 10 in F ₂ plants of Giza 162	80
2.4. Detection of the leaf rust resistance gene <i>Lr</i> 10 in F ₂ plants of Giza 160	80
